Travel with Purpose

HILTON 2022 ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT
This report contains information about Hilton’s Environmental, Social and Governance (ESG) strategy and performance. It has been prepared in accordance with the Global Reporting Initiative (GRI) Standards and integrates the recommendations of the Sustainability Accounting Standards Board (SASB) and the Taskforce on Climate-related Financial Disclosures (TCFD).

In addition to the information found in this report and on our website, we externally report on our Travel with Purpose strategy, programs and progress toward our 2030 Goals in Hilton’s Form 10-K, Annual Report and Proxy Statement. We obtain third-party assurance over selected data disclosed in this report, as indicated in our 2022 Assurance Statement. All financial figures indicated in this report are in U.S. dollars, unless otherwise noted.
**Message from our CEO**

Hilton was founded more than 100 years ago on the belief that travel could make the world a better place. This belief continues to guide us today, inspiring the ways in which we create environmental and social progress while continuing to deliver our signature hospitality around the world.

In 2022, we continued advancing our Travel with Purpose strategy and our 2030 Goals—but we also saw an opportunity to raise the bar based on rigorous analysis and the latest information available. We introduced new, more ambitious environmental and social goals which are laser-focused on paving the way to a net-zero future and creating an engine of opportunity in the communities where we live, work and travel. Those ambitions come to life across our business and are integrated in everything we do, from sustainable operations to responsible sourcing and inclusive hiring practices.

**OUR JOURNEY TO REDUCE EMISSIONS**

As climate science has evolved, our environmental goals and approach have, too. Driven by data, we are leading the industry with ambitious 2030 targets validated by the Science Based Targets initiative (SBTi) on our journey toward reducing emissions across our entire global portfolio while creating greater operating efficiencies.

In partnership with our owners, we reduced single-use plastic amenities in our hotels, expanded our replacement of traditional light bulbs with more energy-efficient LEDs, offered guests on-property electric vehicle charging, and provided lower-emission choices with carbon-neutral options for our meetings and events customers. We also opened what we believe to be the first net-zero hotel in the United States: Hotel Marcel New Haven, Tapestry Collection by Hilton.

Additionally, in 2022 we made a strategic investment in Fifth Wall’s Climate Tech Fund to support its work to deliver innovative decarbonizing technologies to the real estate industry.

**OUR CULTURE OF RESPONSIBILITY**

Hilton is one of the world’s largest hospitality companies, and with more than 7,000 hotels around the globe, we recognize our responsibility to be a leader as an inclusive workplace and to be a force for good in the communities where we operate. As a business of people serving people, we are focused on creating a culture that serves our Team Members—from empowering them to bring their full selves to work to creating opportunities for all in our communities.

When the conflict in Ukraine unfolded, we quickly deployed resources to protect our Team Members and guests in the region. We also partnered with American Express to donate room nights to support Ukrainian refugees and humanitarian relief efforts across Europe.

To further impact our communities, through the Hilton Global Foundation, we granted more than $2M to organizations that advance our Travel with Purpose Goals, including awarding 39 Action Grants for hotels to lead impact projects in their communities. Finally, throughout the year, our team also expanded our relationships with local and diverse suppliers around the world.

**OUR TEAM DEDICATION**

At the heart of all of these incredible efforts are our more than 400,000 Team Members, who are working in thousands of communities globally to share our signature hospitality and make the world a better place. Thanks to their tremendous dedication, we also earned recognition for our environmental and social efforts from many leading benchmarking organizations, including being named:

- A global sustainability leader on the Dow Jones Sustainability Indices for the sixth consecutive year
- A Gold Medal designee by EcoVadis
- The #1 company for ESG by DiversifyInc, and a member of its Hall of Fame
- The #2 World’s Best Workplace by Great Place to Work Institute and Fortune Magazine, and the only hospitality company on the list

I am so proud of all that we accomplished in 2022—thank you to our Team Members, hotel owners, guests and partners around the world. Together, we are proving that hospitality is truly an unstoppable force for good.

Christopher J. Nassetta
President and Chief Executive Officer
April 6, 2023
Our mission is to be the most hospitable company in the world—by creating heartfelt experiences for guests, meaningful opportunities for Team Members, strong value for owners and positive impact in our communities.

OUR BUSINESS MODEL
We organize our operations into three distinct and separately managed operating segments:

1. Our managed segment, comprising hotels that are managed by Hilton on behalf of third-party hotel owners
2. Our franchised segment, comprising hotels owned and operated by third-party owners and management companies
3. Our ownership segment, comprising hotels that are owned or leased by Hilton or our affiliates

A more detailed description of our business model can be found in our public filings.

OUR GREATEST ASSET: OUR TEAM MEMBERS
Our Hilton Team Members are at the heart of our business. We foster a culture of inclusivity for our Team Members and are committed to offering a workplace where they can grow, thrive and reach their full potential. We define Team Members as employees at Hilton corporate offices and owned and managed properties, and employees of franchisees who work on-property at independently owned and operated hotels in the Hilton portfolio.

HILTON SUPPLY MANAGEMENT
Our global procurement and supply chain arm, Hilton Supply Management (HSM), develops relationships and negotiates with suppliers around the world to source goods and services at the best combination of price, quality and service. HSM works with nearly 85,000 Tier 1 suppliers to source over 492,000 products for hotels around the world, servicing over 14,000 properties, including more than 6,600 non-Hilton branded hotels.

Hilton Supply Management
Our ESG Strategy: Responsible Travel and Tourism

Hilton’s environmental, social and governance (ESG) strategy—Travel with Purpose—is integrated throughout our global business, including our operations, our supply chain and our engagement with our communities. At the heart of this strategy are our people, who bring our commitment to sustainable travel to life.
Travel with Purpose is Hilton’s ESG strategy to drive responsible travel and tourism globally.

Hilton proudly serves as an industry leader in driving social and environmental impact and sound governance. Yet we are continuously striving to advance our ESG strategy and evolve our programs to do better—for our guests, our communities and the world.

While social and environmental responsibility has always been a priority for Hilton, in 2018 we set ambitious Travel with Purpose 2030 Goals to hold ourselves accountable for progress across our operations, supply chain and local businesses. Our 2030 Goals are underpinned by targets which closely align with the United Nation’s Sustainable Development Goals (SDGs).

Through Travel with Purpose, our leaders are using their innovation and influence to make meaningful differences in the destinations and communities in which we operate. In this annual report, we share our progress on this worldwide journey.

THE ESG STRATEGIC FRAMEWORK

We are committed to continuously evolving our ESG strategy to ensure it aligns with best practices and the latest climate science. In 2022, we launched our new ESG strategic framework, which serves as a blueprint for our path forward to achieve our Travel with Purpose 2030 Goals. Building on our existing commitments, the framework includes our enhanced ESG goals.

“Working closely with Hilton, Asset World Corporation is rolling out initiatives that align to our sustainable development pillars: Better Planet, Better People and Better Prosperity. We believe our long-term partnership with Hilton allows us to build shared value and develop sustainable tourism for a better future together.”

Khun Wallapa
CEO and President of Asset World Corporation, a Thailand-based Hilton owner group

GOVERNANCE

A robust governance structure will ensure we are advancing and measuring our goals with integrity and transparency.

SOCIAL

Expanded commitments to our Team Members and our communities to drive meaningful impact and create an engine of opportunity.

ENVIRONMENTAL

Renewed, more ambitious emissions targets, validated by the Science Based Targets initiative (SBTi), will set us on a path toward a net-zero future.

MATERIALITY ASSESSMENT

In 2020, Hilton undertook a robust evaluation, inviting company leadership, owners and developers, NGOs and community organizations, hotel guests, investors and suppliers to assess which aspects of ESG are most important to prioritize over the next three to five years. The results of the assessment are being used to ensure that Hilton’s ESG programs not only remain aligned with long-term business strategies across departments and geographic regions, but ultimately will have a positive impact on responsible tourism.

  - Operate through best-in-class **measurement** (LightStay), governance and oversight

---

A pledge to travel lighter—we are paving the way toward a net-zero world and creating an engine of opportunity in the communities we serve around the globe.
Travel with Purpose 2030 Goals

While our Travel with Purpose framework outlines our top-line goals, the below is a holistic reflection of our strategy and detailed sub-goals. Through this strategy, we will create positive environmental and social impact supported by best-in-class governance practices, across our operations, supply chain and communities.
The integration of ESG across our business

At Hilton, every team works hand in hand to “fill the earth with the light and warmth of hospitality” and make progress toward our Travel with Purpose 2030 Goals.

Here are some examples of what our Team Members are doing to integrate ESG into our operations, supply chain and communities:

**FRONT OF HOUSE**
Offer Hilton Digital Key to guests to reduce single-use plastics

**HUMAN RESOURCES**
Create pathways of opportunity for Team Members and community members through job opportunities and training/education

**SALES**
Support customers to meet their ESG goals with Meet with Purpose

**GENERAL MANAGER**
Inspire Team Member and guest engagement with social and environmental goals

**ENGINEERING**
Strive for operational excellence to increase efficiency

**FOOD AND BEVERAGE**
Increasingly source cage-free eggs, sustainable seafood and other ingredients

**HOUSEKEEPING**
Recycle soaps to support communities in need

**HILTON SUPPLY MANAGEMENT**
Negotiate competitive pricing for more sustainable services and products, such as LED lighting, plastic alternatives and electric vehicle chargers; this approach drives impact at scale for our properties, owners and communities

At Hilton, every team works hand in hand to “fill the earth with the light and warmth of hospitality” and make progress toward our Travel with Purpose 2030 Goals.
Set more ambitious emissions intensity reduction goals, validated by the Science Based Targets Initiative (SBTi).

Launched Meet with Purpose checklist, which provides tools to make more sustainable meetings and events, including opportunities for procuring high-quality offsets for remaining carbon emissions through LightStay.

Partnered with American Express and Hilton's ownership community to donate hotel rooms to support Ukrainian refugees and contributed $110,000 from Hilton Global Foundation to World Central Kitchen and Project Hope.

Expanded our existing commitments to support refugees by setting a new goal with the Tent Partnership for Refugees to hire 1,500 refugees in the U.S. over the next three years.

Invested in Fifth Wall's Climate Tech Fund which will power new and emerging decarbonization technologies and help the global real estate sector make progress in the fight against climate change.

Opened the first anticipated net-zero hotel and first Passive House-certified hotel in the U.S. Hotel Marcel New Haven, Tapestry Collection by Hilton.

Provided 39 grants to Team Member-nominated organizations during Travel with Purpose Week to support destination stewardship in communities around the globe.

Contributed nearly $455,000 Team Member volunteer hours in their communities.

Avoided up to 92 tons of plastic key cards in 2022 by offering Digital key.

Distributed nearly $2.3M in Hilton Global Foundation Grants to advance our Travel with Purpose 2030 Goals, funding initiatives that support climate action, destination stewardship, career development, and community resilience.

Commited to grant $500,000 to the AHLA Foundation’s No Room for Trafficking (NRFT) Survivor Fund over the next 3 years to continue to combat human trafficking.

Launched $1 per night donation for every reservation made through the Go Hilton Team Member travel benefit program, expanding funding for the impactful initiatives supported by the Hilton Team Member Assistance Fund and the Hilton Global Foundation.

Distributed nearly $33M from our Team Member Assistance Fund since 2017 to provide assistance grants to Team Members impacted by crises and disasters.

2022 Highlights and Recognition

ESG LEADING RECOGNITION

6TH CONSECUTIVE YEAR, Earned inclusion on both the World and North America Dow Jones Sustainability Indices.

Included in the S&P Global Sustainability Yearbook 2023, receiving the additional distinction of Top 5% S&P Global ESG Score.

Inducted into DiversityInc’s Hall of Fame, recognized as the #1 Company for ESG and the only hospitality company on the Supplier Diversity list.

Awarded EcoVadis Gold Medal in recognition of sustainability achievement.

Named the #2 World’s Best Workplace by Great Place to Work, ranked #2 Best Company to Work for in the U.S. and #1 Best Place to Work in Austria, China, Ireland, Peru, Turkey and Uruguay, and overall, ranked a Best Place to Work in 29 countries.

Named to PEOPLE’s Companies that Care 2022 list.

Recognized as a 2022 Leading Disability Employer by the National Organization on Disability (NOD) and recognized as a Best Place to Work for Disability Inclusion in the U.S. by Disability:IN and the American Association of People with Disabilities (AAPD).

Included in Forbes list of Top 100 Most Customer-Centric Companies.

2ND CONSECUTIVE YEAR, Named a 2022 Trendsetter in the CPA—Zicklin Index of Corporate Political Disclosure and Accountability.

Conrad Maldives Rangali Island
**Responsible travel begins with stakeholder engagement**

Hilton engages with both internal and external stakeholders to seek their expertise, set expectations and align priorities for the development of ESG programs. Through these relationships, we identify the best opportunities to deploy ESG strategic initiatives across the operations of our 7,000+ hotels.

### INTERNAL STAKEHOLDERS: SETTING THE DIRECTION

- **Hilton Leadership** comprises the CEO and Executive Committee, the board of directors, and the Nominating & ESG Committee. These groups receive at least quarterly status updates and share strategy directives with regional business leaders and internal stakeholders, as appropriate.

- **Team Members** advance our community impact efforts by volunteering in the communities we serve, particularly during our annual Travel with Purpose Week. By utilizing LightStay, Team Members have an integral role in tracking and reviewing the progress toward our shared goals. To help drive accountability, portions of Team Members’ annual performance objectives may be tied to ESG-related goals.

- **Owners and Developers** collaborate and share feedback on relevant Travel with Purpose programs and help pilot new sustainability initiatives, whether during design and construction, renovation, or in operations.

### EXTERNAL STAKEHOLDERS: TOGETHER ON THE JOURNEY

- **Investors** receive transparent, third-party assured ESG data in our Form 10-K, Proxy Statement, Annual Report, and ESG disclosures. During investor calls, we answer questions about our progress toward 2030 Goals and explain our efforts to mitigate climate change and social risks.

- **Corporate Customers** advance their own ESG goals by collaborating with Hilton on sustainability and social impact initiatives for their business travel, meetings and events.

- **Local and International Nonprofit Partners** connect with Hilton and the Hilton Global Foundation to advise and collaborate on social and environmental efforts around the world.

- **Industry Peers** help us to co-create travel and tourism commitments related to human rights, carbon, water, food waste, and other critical topics.

- **Community Members** engage with local Hilton leaders and our nonprofit partners to share the issues of greatest importance to them, allowing us to align our programs and innovations with their needs.

Meeting our business travelers with purpose

Our Meet with Purpose program allows customers to integrate social and environmental considerations into their meetings and events, aligned with their own ESG goals.

When it comes to planning a big event, our customers increasingly seek ways to demonstrate their commitment to sustainable business practices. By partnering throughout the process, we support our customers’ motivation to achieve their ambitious climate and social impact goals. And together, we will help preserve our global community for generations to come.

ADVANCING OUR B2B CLIENT OFFERINGS

In 2022, we developed the Meet with Purpose Checklist that our teams use as a road map for conversations with customers that seek to plan more sustainable meetings. This checklist provides thoughtful tips to integrate Gather—Nourish—Impact concepts from the beginning to the end of any meeting or event and empowers meeting planners and travel managers to make impactful purchasing decisions.

In addition to helping customers identify opportunities to reduce the emissions from their meetings and events, Hilton offers a Carbon Neutral Meetings program that supports sustainable development projects. Hilton has developed the Meeting Impact Calculator. Using data gathered from our award-winning LightStay platform, the report provides an in-depth look at where organizations are focusing their green initiatives and how far they have progressed.

Our Meet with Purpose Program

NOW MORE THAN EVER, OUR CUSTOMERS WANT TO MEET WITH PURPOSE

The Meet with Purpose Checklist provides actionable ideas for customers to apply to their meetings and events. This enables our customers to gain more sustainably, nourish mindfully, and positively impact the destination where they are convening.

Meet with Purpose is fueled by LightStay, Hilton’s award-winning proprietary platform that allows hotels to measure and manage their environmental and social performance. LightStay allows Hilton to provide our customers customized environmental and social reporting based on the specifics of the hotel where they plan to host their event.

In 2022, we developed the Meet with Purpose Checklist that our teams use as a road map for conversations with customers that seek to plan more sustainable meetings. This checklist provides thoughtful tips to integrate Gather—Nourish—Impact concepts from the beginning to the end of any meeting or event and empowers meeting planners and travel managers to make impactful purchasing decisions.

In addition to helping customers identify opportunities to reduce the emissions from their meetings and events, Hilton offers a Carbon Neutral Meetings program that supports sustainable development projects. We launched a new partnership with ClimeCo in 2022, a leading global environmental credit project developer, to offer these carbon offsetting opportunities.

Using data gathered from our award-winning LightStay platform, Hilton has developed the Meeting Impact Calculator. The calculator uses each property’s unique consumption data to create a custom report detailing the predicted carbon, energy, water, and waste generated by a meeting or event.

Implementing our new Meet with Purpose checklist is the first step in planning a more sustainable meeting or event by reducing the carbon footprint of the meeting. Then, by considering carbon credits, the remaining actualized carbon emissions from the meeting or event can be offset.

Hilton partnered with Amex GBT to showcase how hotels can help business travel managers and event planners incorporate sustainability into their travel plans. American Express Global Business Travel (Amex GBT) Global Business Consulting partnered with Hilton to develop the Amex GBT Stay Green whitepaper, helping business travel leaders to understand the latest best practices in global travel and meetings with respect to hotel sustainability. The report provides an in-depth look at where organizations are focusing their green initiatives and how far they have progressed.

ENVIRONMENTAL IMPACT CALCULATED

Using each property’s unique LightStay consumption data, our Meeting Impact Calculator creates custom reports detailing the estimated carbon, energy, water, and waste generated by our customers’ meeting or event.

OFFSET THE CARBON EMISSIONS THROUGH LIGHTSTAY

After thoughtful choices that reduce emissions, we collaborate with our partner, ClimeCo, to compensate for an event’s emissions by investing in a portfolio of high-quality, durable, third-party verified wind, solar and wastewater carbon offset projects through LightStay.

GOVERNANCE

APPENDIX
Enabling every guest to Travel with Purpose

We inspire our guests through sustainability initiatives and community-based interactions.

Increasingly, guests are seeking more sustainable experiences and ways to experience local cultures. Our responsible travel practices come to life by way of our daily operations, food and beverage programs, technology and responsible sourcing programs.

ELECTRIC VEHICLE (EV) CHARGING:
With more than 16 million electric vehicles on the road globally, the EV market is shifting the way our guests travel. Over 1,600 of our hotels have now installed convenient EV chargers, which enable our guests to travel more sustainably and reinforce our commitment to reduce the environmental impact on the destinations where we operate.

SUSTAINABLE MENU OPTIONS:
Guests can sample climate-conscious menus featuring locally sourced, sustainably grown meals designed to boost energy and minimize leftovers. Hotels may share the bounty with others by donating remaining food, where allowed by law.

BULK AMENITIES:
Guests will find that hotels are transitioning to full-size amenities, which will greatly reduce plastic waste. And as hotels make this transition, we’ve maintained our relationship with Clean the World to recycle these full-size bottles, diverting them from ending up in landfills.

DIGITAL KEY:
In 2015, Hilton’s app-based Digital Key program was launched to allow guests to bypass the front desk and check in virtually. In 2021, this program expanded to include Digital Key Share to allow guests to share their keys with friends and family members via the app. This technology is now available at more than 80% of Hilton’s portfolio. It has been used to open more than 168 million guest room doors since 2020.

Each Hilton property, in alignment with our overarching Travel with Purpose strategy, chooses unique ways to make a difference in our communities. Our brands take the initiative to make noticeable and lasting upgrades as part of our ongoing commitment to reduce environmental impact.

Encouraging responsible tourism

Grand Wailea, A Waldorf Astoria Resort

Grand Wailea participates in the Hawaii Tourism Authority’s Mālama Hawai‘i initiative, which invites guests to mālama (give back) through volunteer work in return for incentives. Through the Mālama Hawai‘i program, guests can work together with the coastal preservation team from our NGO partner Hawaii Land Trust in some of Maui’s most treasured natural preserves. Guests get the chance to give back to the community, learn about the traditional Native Hawaiian approach to land stewardship, and make a lasting impact on Maui through service. In return for their kōkua (help), we say mahalo (thank you) by giving volunteers a free sixth night of their stay.

Beauty meets sustainability

Waldorf Astoria Hotels & Resorts

Waldorf Astoria announced a partnership with skincare brand Aesop, known for formulating sustainable products of the finest quality for the skin, body and hair, as well as fragrance and accessories for self and space. Select formulations will now be the in-room toiletries for Waldorf Astoria Hotels & Resorts worldwide. This collaboration marks the first and only global hospitality brand with which Aesop has partnered to provide its product at this scale. The properties will feature full-size, in-room toiletries made from 97% post-consumer recycled plastic, marking a conscious shift away from travel-size toiletries.

Experiences in nature

Royal Palm Hotel Galapagos, Curio Collection by Hilton

Located opposite Galapagos National Park, a UNESCO World Heritage site known for its biodiversity and ecotourism opportunities, the Royal Palm Hotel Galapagos offers guests a 30-day ‘Live Life’ sabbatical experience providing a tranquil escape and adventures including hiking, snorkeling and kayaking, nighttime bird watching, encountering giant tortoises and dining inside a lava tunnel, 60 feet underground.

Hilton’s ESG sourcing experts tour a seafood supplier in the Chesapeake Bay area. This team is dedicated to building relationships with suppliers that make the guest experience at our hotels more sustainable and responsible.
LightStay is the backbone behind the measurement of our environmental and social performance

LightStay, our award-winning ESG management system, helps track our progress toward our Travel with Purpose 2030 Goals. With LightStay, we can analyze and report on our environmental and social impact at our hotels globally.

LightStay

LightStay is our award-winning, industry-leading ESG management system for measuring and recognizing our hotels’ progress toward our Travel with Purpose 2030 Goals. It also enables our hotels to report the environmental impact of hotel stays, meetings and events to our corporate customers.

As a standard requirement across Hilton’s global portfolio of hotels, LightStay use is essential to our governance structure, and it informs each hotel of their specific reduction targets and social impact priorities. Our managed and franchised hotels are required to track energy, carbon, water, waste and efficiency projects under way, as well as social impact metrics including career opportunities, community voluntarism, and donations. LightStay also captures hotels’ sustainability features and certifications, and it offers location-specific risk indices, including for biodiversity, water and human rights. Real-time dashboards and monthly updates keep properties regularly informed of their ESG performance.

GAINING RECOGNITION

LightStay is aligned with the globally recognized criteria of the United Nations-founded Global Sustainable Tourism Council (GSTC), an established seal of approval for sustainable travel and tourism practices. We use LightStay globally to comply with ISO 9001 (Quality Management), ISO 14001 (Environmental Management), and ISO 50001 (Energy Management). Hilton has been working closely with Travelyst’s Accommodation Framework program to make it easier for our guests to find sustainability information on partner booking programs. Google recognizes LightStay for their ‘eco-certified’ label, and Booking.com uses LightStay data to recognize and assign Hilton hotels one of their three Travel Sustainable levels. We continue our work with all partners to ensure guests can book sustainable hotels as easily as possible.
Spreading our light and warmth to the world

The Hilton Global Foundation (HGF) is our primary international philanthropic arm, advancing our ambitious Travel with Purpose 2030 Goals.

FOUNDATION REBRANDING

Formerly known as the Hilton Effect Foundation, the Foundation rebranded in 2022 to enhance its visibility and align its programs with our corporate and ESG objectives.

The Hilton Global Foundation (HGF) seeks to have a positive impact on the communities we serve, with the mission to create a better world to travel for generations to come. HGF awards grants within four focus areas that align to our Travel with Purpose environmental and social goals:

- Climate Action
- Destination Stewardship
- Career Development
- Community Resilience

HILTON GLOBAL FOUNDATION 2022 GRANTEES

Throughout 2022, HGF distributed over $2 million to organizations around the world through programs such as its Signature Grants, Annual Grants, Disaster Relief Grants, and Action Grants to support our four funding priorities.

In October, HGF distributed Annual Grants to 38 organizations that demonstrated a meaningful commitment to preserving and conserving travel destinations, creating access to water, building hospitality skills, and ensuring our communities have the vital resources they need to thrive.

The announcement corresponded with Hilton’s Travel with Purpose Week, an annual week of community engagement and volunteer service across our global corporate, managed and franchised locations. Relying around the 2022 theme of Destination Stewardship, we dedicated the week to supporting our Travel with Purpose ESG strategy while celebrating the positive impact driven by Team Members.

In alignment with our Destination Stewardship theme, HGF also contributed $125,000 to organizations and initiatives specifically dedicated to improving travel destinations and positively impacting the environment. This includes 39 Action Grants given to organizations nominated by our Team Members around the world and used to launch volunteer efforts in their local communities.

Nearly $2.3M distributed in Hilton Global Foundation grants

21% increase in Hilton Global Foundation grant awards from the prior year

Since established in 2019, $8M+ in grants awarded to more than 150 NGOs and community-based organizations

HGF SIGNATURE PARTNERSHIPS

HGF supports long-standing partnerships with organizations creating a lasting, positive impact in communities and environments around the world.

Clean the World Foundation: Addresses challenges of homelessness and displacement

International Youth Foundation: Creates opportunities for young people by developing and strengthening their skillsets

MOBILE SHOWER AND HURRICANE RESPONSE

In a public-private partnership with Clean the World Foundation and the Orange County Government, HGF provided a grant to support the operational costs of a mobile shower unit serving individuals experiencing homelessness in Orange County, Florida. A hot shower and hygiene supplies are a saving grace for individuals transitioning to future housing and job placement. Further, the mobile shower supported individuals in the aftermath of Hurricane Ian. In 2022, the unit provided 1,467 showers and 6,473 wrap-around services, including medical services, meals/food supplies, clothing, and connection to ID services.

</tr>
</tbody>
</table>

### SDGs

5.1, 5.5: In 2022, we created more than 677,359 learning and career growth opportunities against our 5 million commitment.

8.5, 8.6, 8.b: Achieved 40% Women at global corporate leadership levels in 2022 (+3 vs. YE2020).

10.2, 10.3: Achieved 19% Ethnic Diversity at our U.S. corporate leadership levels in 2022 (+2 vs. YE2020).

### Progress to Date

#### In 2022:

- Created more than 677,359 learning and career growth opportunities against our 5 million commitment.
- 40% Women at global corporate leadership levels.
- 19% Ethnic Diversity at our U.S. corporate leadership levels.

#### Status:

- On track for 5.1, 5.5
- Making progress for 8.5, 8.6, 8.b
- Making progress for 10.2, 10.3

## COMMUNITIES

### Meaningfully impact 20 million community members

- Contribute 10 million volunteer hours.
- Participate in food donation programs, where allowed by law (managed hotels).
- Award 300+ Action Grants for hotel-led social and environmental impact projects that provide local support for our communities.
- Design, standup, and activate a disaster relief program to support our community members and Team Members.
- Leverage our large global footprint and deep integration within our communities to expand local sourcing and business with diverse and small suppliers.

### Social Impact

- In 2022, Hilton and the Hilton Global Foundation meaningfully impacted 2,793,920 community members through local support, disaster relief efforts, and economic opportunities.
- Since establishment in 2019, awarded $8M+ in Hilton Global Foundation grants to more than 130 NGOs and community-based organizations.
- Distributed nearly $3 million in critical financial support to more than 3,600 Team Members impacted by disasters, crises, and personal hardship instances since 2014.
- Reached 78,588 refugees since 2015 through volunteering, in-kind donations, purchasing, training, shelter, and employment.
- Awarded 39 Action Grants to nonprofit organizations around the globe for hotel-led social and environmental impact projects.
- Sourced from more than 2,400 women, minority, veteran, disabled, and LGBTQ+-owned businesses in 2022.
- Over $3.6M of spend moved from imported to local sourcing in 5 EMEA markets.

### Governance

- 50% of brands have at least one brand standard requiring local sourcing.
- Introduced Meet with Purpose checklist to enable customers to host more sustainable meetings and events, and launched feature in LightStay to purchase high-quality carbon offsets for carbon neutral meetings.

### SDGs

11, 12, 15: In 2022, Hilton and the Hilton Global Foundation meaningfully impacted 2,793,920 community members through local support, disaster relief efforts, and economic opportunities.

11.5: Since establishment in 2019, awarded $8M+ in Hilton Global Foundation grants to more than 130 NGOs and community-based organizations.

12.3: Distributed nearly $3 million in critical financial support to more than 3,600 Team Members impacted by disasters, crises, and personal hardship instances since 2014.

13: Reached 78,588 refugees since 2015 through volunteering, in-kind donations, purchasing, training, shelter, and employment.

14.4, 14.b: Awarded 39 Action Grants to nonprofit organizations around the globe for hotel-led social and environmental impact projects.

### GOAL TRACKER

#### Environmental Impact

- Promote responsible, inclusive conduct across 100% of our operations.
- Promote responsible sourcing of beef, poultry, pork, eggs, seafood, and produce from third-party recognized and/or certified suppliers across our managed hotels.
- Embed ESG due diligence across our supply chain and partner with suppliers to advance positive impact.
- Engage guests in supporting responsible travel and destination stewardship.

- Continued making progress on sourcing from Marine Stewardship Council and Aquaculture Stewardship Council-certified fisheries, with Japan, Korea, and Micronesia becoming our first region to achieve 25% sustainable seafood volume in 2022.
- Achieved the following egg purchasing from cage-free sources across our Hilton-managed hotels: 54% in the Americas, 46% in EMEA, and 7% in APAC.
- 110 key suppliers invited to complete the EcoVadis Assessment in 2022 to strengthen due diligence and support ESG performance across our supply chain.
- Over 50% of brands have at least one brand standard requiring local sourcing.
- Introduced Meet with Purpose checklist to enable customers to host more sustainable meetings and events, and launched feature in LightStay to purchase high-quality carbon offsets for carbon neutral meetings.
### ADVANCING AND MEASURING OUR GOALS

Environmental Impact

Through climate action and destination stewardship, we are paving the way toward a net-zero future for our company and the global travel and tourism industry.

Grand Wailea, A Waldorf Astoria Resort

Grand Wailea installed a 1.5-megawatt solar panel array to help power operations—one of several energy efficiency measures that were implemented across the resort.
We recognize climate change to be a critical threat to our planet, our communities, and our business. We’ve made combatting it a top business priority. We aim to meet the expectations of the growing number of purpose-driven consumers who value sustainable travel.

**RESETTING OUR SCIENCE-BASED TARGETS**

In 2018, Hilton was the first major hospitality company to set science-based targets to reduce our greenhouse gas emissions in line with climate science. These targets were validated by the Science Based Targets initiative (SBTi) and served to guide annual reduction goals for our hotels and across the enterprise.

In line with the SBTi requirement, we committed to review our emissions goals every five years to ensure ongoing alignment with the Paris Agreement, which reflects the latest climate science and which had evolved over the past five years. For this reason, we undertook the rigorous application and analysis process in 2022 to evaluate our existing targets, assess our current and projected greenhouse gas inventory, and align the data to the latest methodology from the SBTi, which is a collaboration among four leading organizations: World Resource Institute’s Center for Sustainable Business, World Wildlife Fund, Climate Disclosure Project, and the United Nations Global Compact. This rigorous exercise allowed us to set new, enhanced carbon intensity reduction targets that were both more ambitious and grounded in the realities of the latest climate science. The new targets were revalidated with SBTi and announced publicly in mid-2022.

Our reduction targets are separated into two categories: Scope 1 & 2 emissions from our managed portfolio, for which we have operational control; and Scope 3 emissions from our franchised properties. As a result, the entirety of our current and projected portfolio is covered within the SBTi goal framework.

**OUR PATH TO ACHIEVING AMBITIOUS GOALS**

In 2022, Hilton engaged Schneider Electric, a global leader in energy and sustainability solutions and strategy development, to help us define our roadmap to achieve our revalidated 2030 science-based targets. We formed a global cross-functional work group composed of our ESG team and our global operations engineering teams, which collaborated with Schneider Electric to collect and review hotel utility trends, hotel efficiency project data, development pipeline projections, anticipated technology and grid transformation, and other data to chart our path toward 2030.

Together, we ran a rigorous analysis of our enterprise-wide emissions data and calculated key interventions, their estimated cost and payback, and environmental benefit.

---

**ENVIRONMENTAL IMPACT**

**PAVING THE WAY TO NET ZERO**

**CLIMATE ACTION**

We are committed to leading the hospitality industry toward a net-zero future and reducing our greenhouse gas emissions in line with climate science.

**BY 2030, WE ARE COMMITTED TO:**

- **WATTS**
  - Carbon/Energy: Cut managed portfolio emissions intensity by 75% by 2030
  - Cut franchised portfolio emissions intensity by 56% by 2030
  - Drive toward a net-zero future
- **WATER**
  - Cut water use intensity by 50% by 2030
- **WASTE**
  - Cut landfilled waste intensity by 50% by 2030

---

**CONDUCT**

- **CAREERS**
  - Create and partner with cross-industry networks
  - Advocate for public policies
- **PARTNERSHIPS**
  - Support local relief organizations and communities
  - Promote responsible, inclusive conduct
- **GOVERNANCE**
  - Operate through best-in-class policies & reporting
  - Create and partner with cross-industry networks
  - Advocate for public policies
- **SOCIAL IMPACT**
  - Meaningly impact communities and our business
  - Create and partner with cross-industry networks
  - Advocate for public policies
- **ENVIRONMENTAL IMPACT**
  - Cut managed portfolio emissions intensity by 75% by 2030
  - Cut franchised portfolio emissions intensity by 56% by 2030
  - Drive toward a net-zero future
- **WATER**
  - Cut water use intensity by 50% by 2030
- **WASTE**
  - Cut landfilled waste intensity by 50% by 2030

---

**Better Climate Challenge**

Hilton was the first hospitality company to sign on to the U.S. Department of Energy’s Better Climate Challenge, a national leadership initiative of organizations committed to reducing greenhouse gas (GHG) emissions, creating jobs, and promoting healthy, safe, and thriving communities. As a Better Climate Challenge partner, we have made a public commitment to a more than 50% reduction in GHG emissions across our managed hotel operations over the next 10 years.

A PHASED IMPLEMENTATION STRATEGY

Ultimately, we developed a phased implementation strategy to reduce our emissions, prioritizing key sustainability initiatives for maximum impact. The approach begins with operational shifts that require limited resources to implement, followed by investments in high-impact energy efficiency projects. In the next stage, we work toward off-site renewable energy procurement and end-of-life equipment replacement, as well as high-efficiency retrofits and electrification measures. The final phases of the roadmap focus on on-site renewable electricity generation and, as a last step, the purchase of renewable energy certificates (RECs) and carbon offsets for any remaining unavoidable emissions.

This waterfall approach enables Hilton to make informed decisions and has helped us chart the path to achieving our emissions intensity reduction of 75% for managed properties and 56% across our franchised portfolio by 2030.

THE STATE OF OUR EMISSIONS INTENSITY

Our primary source of emissions comes from the operation of our hotels. In 2022, we saw a resurgence in travel and resulting higher occupancy rates across our global portfolio. As a result, we experienced an increase in utility consumption across energy and water and an increase in waste generation compared to 2020-2021. As the business continues to recover, we aim to remain below pre-pandemic consumption levels and to pursue our roadmap to achieve our new and more ambitious 2030 emissions targets.

Roadmap to Emissions Intensity Reduction

STANDARD OPERATING PROCEDURES
Current practices that require no or low cost

ENERGY EFFICIENCY
Enhancing efficiency with faster payback investments, often capturing tax or utility incentives to accelerate ROI

RENEWABLE POWER PROCUREMENT
Making investments in off-site renewable power in partnership with owners; opportunity to sell back to the grid and secure RECs

RETOPTS & ELECTRIFICATION
At the end of life, investing in higher efficiency mechanical equipment, ideally powered by electricity. The emissions associated with these investments often last over 20 years

ON-SITE GENERATION
Harnessing clean renewable power from the sun or deep inside the earth

OFFSETS & RENEWABLE ENERGY CERTIFICATES
Purchasing annual high quality carbon offsets and RECs as a last resort to make up the balance

Our robust action plan, developed in consultation with global sustainability leader Schneider Electric, projects our emissions based on our development pipeline, projected costs, efficiency investments, greening of the grid, and other factors.

Note: In partnership with Schneider Electric, Hilton devised this roadmap. We are taking into account the growth we will experience in our pipeline (i.e., growth will increase our emissions, so the roadmap considers a potentially higher emissions volume from having more properties included in the calculation). Lastly, we are taking into account the greening of the grid.
“Traveling with a Purpose to us means embracing the environment and the people we meet. Appreciating and learning from the different towns we visit helps us to see why it is important both to tread lightly and bring home with us the best souvenir possible: a new perspective on how beautiful the world is.”

Cory and Beau Williams
Brothers and Co-Owners of Botánika Osa Peninsula, Curio Collection by Hilton

Environmental stewardship
Botánika Osa Peninsula, Curio Collection by Hilton, Costa Rica
In 2022, Hilton opened Botánika Osa Peninsula as a distinctive nature resort presenting exclusive access to Costa Rica’s unspoiled South Pacific Coast. Managed by Aqua-Aston Hospitality, this property is located beside Corcovado National Park and the Golfo Dulce tropical fjord, which offer some of the region’s most ideal eco- and adventure tourism activities.

The hotel team strives to connect tourism and conservation by preserving the local environment and educating guests and local students about the value of environmental stewardship. They work with the community to provide guidance on ocean protection and responsible fishing; host school field trips with nature guides to educate children on local ecosystems and animals, such as sea turtles; and manage the logistics of a recycling program that creates jobs and reduces waste.

Biodiversity is a component of our environmental policy. We manage risk to the natural habitat of the destinations where we operate by assessing our impact on marine and terrestrial biodiversity at our hotels. The Verisk-Maplecroft’s Climate Change Vulnerability Index monitors our biodiversity risks and maps against multiple climate scenarios. The results of this risk analysis are shared with our hotels using LightStay. Furthermore, many hotels have retained partners to advance local efforts to preserve and protect local habitats and biodiversity as part of destination stewardship efforts.

Hilton’s Vice President of Global ESG, Jean Garris Hand, speaking on the ESG panel at the 2022 GBTA Convention in San Diego, California

Industry leadership
Hilton drives sustainable travel by participating in industry groups such as the Global Business Travel Association (GBTA) Sustainability Leadership Council, the American Hotel & Lodging Association’s (AHLA) Sustainability Committee and Responsible Stay Initiative, and the Sustainable Hospitality Alliance (SHA) Senior Advisory Council.

The GBTA Sustainability Leadership Council is comprised of 16 global travel industry executives who advise on GBTA’s overall strategy to influence climate action and corporate responsibility. As part of its early initiatives, GBTA released the industry’s first-ever comprehensive study—across travel suppliers, travel buyers, and policy and government stakeholders—on the state of sustainability in business travel and actions to improve the sector’s environmental performance. Hilton joined the council in March 2022.

The SHA helps drive collaboration for a more sustainable future in the hospitality industry by focusing on issues such as human rights, youth employment, climate action and water stewardship. As part of SHA’s Senior Advisory Council, we serve as an ambassador to key stakeholder groups by advising on the latest industry issues to ensure SHA is well positioned to achieve its greatest impact.

In 2022, AHLA launched a new initiative called Responsible Stay to highlight industry efforts in sustainability focused on four key areas: energy efficiency, water conservation, waste reduction and responsible sourcing. We endorsed this initiative and look forward to continuing to work together on ways to make the hospitality industry more environmentally and socially sustainable.
Decarbonization, one step at a time

We believe we can achieve our energy goals through a relentless focus on energy efficiency, electrification, and transition to renewable power, which will reduce both utility costs and greenhouse gas emissions from our portfolio of hotels.

**100%** certified renewable electricity is used to power nearly ⅓ of all managed hotels in EMEA

**100%** of set of Scope 3 emissions from Hilton corporate air travel and rental cars

### RENEWABLE ENERGY

Our operations teams are exploring ways to increase our renewable energy procurement across our global portfolio, seeking green energy contracts where possible. Hilton works with hotel owners to identify opportunities to invest in small- and large-scale renewable and low-carbon technologies that make financial and practical sense, with the aim for hotels to operate from a self-sufficient energy supply. All managed hotels in the U.S. are encouraged to procure at least a portion of their electricity from renewable sources through our energy procurement services contracting program.

Nearly one-third of managed hotels across EMEA, as well as our Watford and Glasgow corporate offices, are currently powered with 100% certified renewable electricity. Since 2022, two-thirds of hotels across the Middle East, Africa and Turkey completed a feasibility study for an on-site solar photovoltaic project.

### SUSTAINABLE MEETINGS AND EVENTS

We also partnered with ClimeCo to develop a portfolio of verified carbon credits available for corporate customers hosting meetings or events at our hotels around the world.

In 2022, we promoted renewable energy projects such as solar, wind and wastewater offset projects with the purchase of verified and Gold-certified carbon offsets to address the emissions that could not be reduced and associated with our regional and global corporate conferences in Orlando, Las Vegas, London and Singapore, which hosted over 5,000 attendees.

### EV CHARGERS FOR GUEST USE

Also in 2022, we launched two key initiatives that will better serve guests who are seeking electric vehicle (EV) charging options.

The primary component of this launch was digital: A new filter on Hilton’s website and Hilton Honors app now allows guests to search for hotels that offer on-site EV charging.

### ENERGY-EFFICIENT LIGHTING

By 2024, all of Hilton’s properties worldwide will have completed a full transition to LED lighting, a highly energy-efficient technology. This initiative will both reduce hotels’ energy consumption and generate long-term cost savings on electricity bills. Changing light bulbs is the most common request received by engineering teams at our hotels, as LEDs have a significantly longer lifespan than traditional light bulbs. This transition will also save our Team Members’ time that they can use to focus on other decarbonization efforts.

*2022 shows an increase in consumption against 2021 as business recovers from the impact of the pandemic; however, consumption remains below 2019 levels, and we have charted our path to achieve our 2030 goals.*
INNOVATIVE PARTNERSHIPS: INVESTING IN TECHNOLOGY

**Fifth Wall:**
Continuing our legacy of prioritizing innovation, Hilton made an investment in two Fifth Wall climate technology funds that aim to decarbonize the global real estate sector: an early-stage fund focused on “moonshot” ESG technologies and a late-stage fund comprising patented, manufactured and ready-to-install ESG innovations.

Fifth Wall is a venture capital firm focused on the global real estate industry and property technology in existing buildings. It is backed by 70 of the world’s largest owners, operators and developers of real estate from 15 countries. Fifth Wall invests in technology companies tackling climate change, aging buildings and infrastructure, inaccessible housing markets, unreliable supply chains, and the future of work. Hilton is the only hotel brand investing in Fifth Wall’s Climate Tech Fund, demonstrating our commitment to climate action and decarbonization.

**Aquicore:**
In 2022, Hilton deepened its partnership in the U.S. with Aquicore, a leading platform for energy and facility performance management in commercial real estate. The platform equips operations and engineering leaders to monitor the central plant and HVAC systems centrally, and identify and deliver actionable, low-or-no-cost equipment modifications to improve asset performance. Real-time insights into sources of energy waste enable our teams to run properties more efficiently and reduce their carbon footprint.

Since installing Aquicore in our first property in 2017, we have achieved over $4 million in energy cost savings to date across dozens of full-service properties.

**Another first**

**Hampton Inn/Homewood Suites by Hilton Boston Seaport:** In August 2022, the hotel became the first U.S. managed hotel to sign an energy deal which supplies certified renewable energy for 100% of the hotel’s electric consumption.

**New Charging Stations**

**Hilton Addis Ababa:** In partnership with Green Tech Ethiopia, this property inaugurated Ethiopia’s first EV charging station at a hotel in the presence of high government officials and invited guests.

The Minister of Tourism H.E. Nasise Chali and Minister of Transport H.E. Dagmawit Moges congratulated Hilton on another first by taking the lead for supporting guests who drive electric vehicles. With this initiative, Hilton Addis Ababa supports the aim of improving Africa’s green energy future.

**Hilton Zhoushan:** Newely installed Tesla charging stations provide services to more than 3,100 guests with EVs, reducing vehicle carbon emissions by 60 tons. Nearly 20% of properties in Mainland China have EV chargers.
Green Key certification

Rome Cavalieri, A Waldorf Astoria Hotel

The hotel has achieved Green Key certification for the fourth consecutive year. In the last five years, the hotel has achieved a high level of energy efficiency, undertaken excellent waste management, constantly monitored carbon emissions, and collaborated regularly with numerous local associations that support disadvantaged communities. The hotel’s sustainability efforts have led to significant reduction in operating costs. These accomplishments are driven by LED installations, irrigation management and daily utility monitoring.

Designing greener hotels

WE ARE THE ONLY MAJOR HOTEL BRAND TO HAVE ACHIEVED CERTIFICATION TO ISO ACROSS OUR GLOBAL PORTFOLIO OF HOTELS

Through our efforts, we have one of the largest portfolios of buildings certified to ISO standards in the world. Our certifications to ISO 14001 (Environmental Management), ISO 50001 (Energy Management) and ISO 9001 (Quality Management) requirements by tracking emissions reductions following the implementation of our investments in efficiency and resilience. Owners of both managed and franchised properties are required to build and operate hotels that align with our Brand Standards, which include minimum guidelines for energy and water efficiency, and are required to operate in compliance with ISO 14001 and ISO 50001.

GREEN BUILDING GUIDANCE

We encourage our owners to build or renovate hotels to the highest green building standards that can apply in the hotel’s location. Our approach includes providing design guidance during construction as well as operational guidance for our existing portfolio. The Energy and Water Efficient Design Companion Guide complements our Brand Standards by offering improvements that can be made during hotel development, refurbishment and maintenance to improve environmental performance. We encourage implementation of efficient appliances and building systems when the equipment reaches its end of life.

During 2022, we retained ReTech Advisors, a leading sustainability consultant, who will help us to develop sustainable design checklists for renovations, conversions, and new builds that we will co-create with our architecture, design and construction (AD&C) team to support our owners to achieve more sustainable design and a lower cost of ownership.

We are exploring new business partnership opportunities to make it easier for our owners to streamline the donation of all soft goods, furniture, finishes, and fixtures in guestrooms and public spaces to charitable organizations and recycling centers across the U.S. In addition, during LED lighting conversions in the U.S., we have made a recycling program available to owners that separates lamp components and reports the volume of materials diverted from landfills.
Conserving water, one of the world’s most valuable resources

We embed water stewardship throughout our global operations. We work closely with our hotels, our suppliers and our community partners to drive water reduction and conservation as well as improve water availability and quality in all our locations around the world.

100% of our portfolio of hotels were mapped for WWF’s Water Risk Filter

WATER AS A MOST PRECIOUS RESOURCE

We’ve developed standards for the architecture, landscaping and basic systems of our hotels that lessen energy usage, limit light and air pollution, and conserve water. Our water conservation efforts for our mega brands (e.g., Hilton Garden Inn, Embassy Suites) include:

WATER-SENSITIVE LANDSCAPES: Lush gardens and lawns are water-intensive. Replace the thirsty species with drought-tolerant native plants or succulents.

WATER-EFFICIENT FIXTURES: High-efficiency, adjustable-flow and controlled-stream showerheads, toilets and faucets conserve water.

Additionally, our brand standards require all hotels to regularly monitor and report their water-use metrics compared against an improvement goal. They must also employ LightStay to report on an active water-related improvement project.

ELEVATING OPERATIONAL WATER EFFICIENCY

Several Hilton properties have demonstrated leadership in tackling water consumption by improving operational water efficiencies.

STORMWATER MANAGEMENT: In an effort to reduce the burden on the city’s stormwater infrastructure and improve water quality, Conrad Washington, DC features an on-site stormwater management system where it is able to capture 97 percent of rainfall and use it to irrigate the hotel’s outdoor terraces and to cool its air conditioning towers.

MORE EFFICIENT EQUIPMENT: Home to several plunge pools, Waldorf Astoria Los Cabos Pedregal uses high-efficiency variable speed pumps, electrical heaters and gas heaters to help reduce energy by up to 50%. Additionally, each of the guest room doors automatically shuts off the cold-water valve when the guest leaves the door ajar, helping to minimize condensation.

WATER RECYCLING: Grey water is lightly used water from day-to-day activities that is safe and effective to use in many landscaping efforts. The grey water recycling system at Hilton Garden Inn Dubai Mall of the Emirates has significantly reduced water consumption since its opening, helping to combat Dubai’s water scarcity issue.

WATER RISKS IN THE COMMUNITIES WE SERVE

We map our hotels against the WWF-DEG Water Risk Filter and use the data to analyze current and future water risks across our portfolio. LightStay contains this analysis so that our hotel teams can understand and address water risks specific to their geolocation. Using the WWF-DEG Water Risk Filter, we evaluate factors that may potentially impact our current global hotel operations and expansion in specific geographic markets. We also study specific areas and river basins where our water stewardship initiatives would have the greatest value.

Our water stewardship strategy focuses on the following areas of our value chain: hotels and guests; suppliers and services; and communities and watersheds.

Water-saving laundry products

We encourage our hotels to opt for cleaning products that require lower energy and water use. For example, two of our hotels in India have piloted the use of a low temperature laundry program. Advanced by Diversey, which uses up to 28% less water and 24% less energy, and produces 28% less effluent waste. Based on the positive results of this pilot, we plan to roll out this program to further hotels in the region.
Reducing waste and advancing a circular economy

Waste reduction, recycling, and food upcycling and donation are all critical components of creating a more environmentally friendly hospitality industry.

35.7% of waste diverted from landfills (managed hotels only)

2.3M+ bars of soap donated in 2022

Reducing waste across our value chain

Our waste reduction strategy focuses on supply chain evaluation and sustainable sourcing initiatives, while taking steps to divert remaining waste from landfill through donation, recycling, composting and waste-to-energy incineration.

We have adopted a prevention, recovery and recycling strategy across our hotels in the Americas and EMEA regions and piloted the program in Asia Pacific.

Food as an asset

We encourage our hotels to utilize the Hotel Kitchen Toolkit, developed by the World Wildlife Fund, which guides hotels through techniques for reducing food waste in every step of the food and beverage process: preventing food loss and waste before it arises through thoughtful menu planning; recovering wholesome, otherwise wasted food for donation, where possible; and channeling food scraps toward other uses such as animal feed and compost. All of this is supported by data tracking through LightStay to enable decision making.

In 2022, we also laid the groundwork for a new initiative with the World Resources Institute Cool Food program to leverage best practices, explore options for more plant-rich menus to reduce the climate impact of food served at our properties, and to reduce food waste.

Leftover food shouldn’t be wasted

According to the United Nations, an estimated 17% of total global food production goes to waste, of which 5% comes from the food service industry. Estimates suggest that 8–10% of global greenhouse gas emissions are associated with food that is not consumed. Taking a firm stand, our Team Members have embraced waste reduction and food upcycling strategies in creative ways, all over the world. Here are just a few examples.

New pilot program with Goodr: We began a pilot with Goodr, a Black-woman-owned company that collects unused food and delivers it to a national network of nonprofits. The pilot began at the Hilton Orlando, serving 590 meals to the local community, diverting 708 lbs. of food from landfill, and preventing 384 lbs. of carbon dioxide emissions.

Food waste reporting systems: Sixty-seven of our hotels in EMEA have adopted food waste reporting systems, such as Winnow, which leverages AI technology to help chefs accurately pinpoint food waste streams, cut costs and tailor purchasing decisions based on the data.

Implementing composting: Hilton Seychelles Labriz Hotel has implemented a compost heap, the output of which helps to grow its on-site organic garden, adopted a stringent food waste–monitoring effort, and engaged with a water-bottling plant to replace plastic water bottles. Other environmental efforts include using only recycled glass, tins and PET bottles.

Hilton Seychelles Labriz Hotel and Spa on Silhouette Island, Seychelles.
PROGRESS IN REDUCING SINGLE-USE PLASTICS

Plastic pollution threatens communities, environments and the destinations in which we operate. In 2022, we continued to focus on reducing single-use items through various programs launched in hotels and in partnership with local suppliers. Guests can expect most of our hotels to be free of miniature toiletries by the end of 2023. Our app-based Digital Key program saw greater adoption in 2022, as more guests chose to bypass the front desk and check in virtually.

Many of our hotels around the world have implemented sustainable hydration solutions such as reusable drinking vessels, refill stations and closed loop bottling systems. Currently, more than 2,400 hotels have hydration stations offered for guests.

Waste-to-product initiatives creating shared value with Diversey

We partner with international cleaning and sanitation company Diversey, Inc. throughout the Asia-Pacific region to help with various waste reduction and community improvement efforts. Our 2022 partnership highlights include:

LINENS FOR LIFE: This program repurposes discarded linen from hotels, including curtains, uniforms, bed sheets and table cloths, into products that can be sold and used by the local community. Diversey’s NGO partners create job opportunities for workers to design and sew these linens into items such as school uniforms, newborn baby swaddling cloth and COVID face coverings.

PLASTICSHREDS: This program employs a creative process that turns plastic into smaller shreds that become downstream alternatives to gravel. Plastic pieces are “entombed” into concrete pavements that can be used by communities to fill potholes and build carparks. A simple 2x1m pavement can entomb as much as 172 liters of shredded plastic chips, or 8,200 500-milliliter bottles, according to Diversey’s research.

Hydroponic farming

Conrad Abu Dhabi Etihad Towers

As part of a strategy to support sustainability and protect the environment, Conrad Abu Dhabi Etihad Towers has achieved its goal of adopting a vertical hydroponic farm for zero waste. The technology relies on carefully planting each plant less than 100 meters from the hotel’s Michelin-starred restaurants. As it boosts its ambition to become a zero-waste destination, the hotel’s gardener will work with kitchen teams to ensure only specific amounts of each plant are grown, so they don’t spoil or get thrown away.

COFFEE BRICKS: This program turns discarded coffee grounds into cleaner alternatives to charcoal, which can be used as fuel by communities or for the hotel’s own kitchen needs.

Upcycling in real life

Hilton Luxor Resort & Spa

At Hilton Luxor Resort & Spa sustainable solutions and smart investments build on the positive impact the property creates. This property introduced two exciting concepts: using fabric laundry bags to eliminate the use of plastic materials and recycling discarded swimming pool floats that otherwise would have been throw away.

KEEPING SOAP OUT OF LANDFILL

We are proud to have been the first hotel brand to make soap recycling a brand standard, and the first to set the commitment to send zero soap to landfill. We operate the largest soap recycling program in the hotel industry, with more than 80% of our portfolio enrolled, including all hotels in the U.S. and Canada.

Used soap from guest rooms is collected by our housekeeping teams and sent to our partners, including Clean the World, Soap Aid, Soap Cycling, and Sundara, which sanitize the soap and turn it into new bars for donation. Through our soap recycling partnership with Clean the World, we recycled our soap into more than 2.3 million bars that have been donated to those in need, diverting more than 211,000 pounds from landfill in 2022.

We launched Digital Key share feature which has been shared over 1M times since launch in 2021

PLASTICSHREDS: This program turns discarded coffee grounds into cleaner alternatives to charcoal, which can be used as fuel by communities or for the hotel’s own kitchen needs.

COFFEE BRICKS: This program turns discarded coffee grounds into cleaner alternatives to charcoal, which can be used as fuel by communities or for the hotel’s own kitchen needs.
Social Impact

Our enduring role is to foster opportunity for people, including our Team Members and our neighbors in the destinations where we operate around the world. In addition, we bring urgent focus and committed action to the pursuit of diversity, equity & inclusion and to the protection of human rights.
At Hilton, we lead with culture and are fiercely committed to creating the world’s best work environment. Understanding and integrating our Team Members’ unique perspectives and voices—along with those of our guests, owners, suppliers and partners—is essential to cultivating our inclusive environment. We strive to reflect the global communities where we work, live and thrive.

Over the last century, Hilton has curated exceptional experiences, extraordinary stays and memories to last a lifetime. We seek to build strong connections and make a lasting impact in our communities, whether by leading service initiatives, encouraging people to join our team, or inspiring their dreams.

In 2022, we enhanced our existing Travel with Purpose social goals to further commit to the areas where we can have the greatest impact, including supporting career opportunities, community impact, and responsible, inclusive conduct across our business.

### CAREERS

- Create **5 million** learning and career growth opportunities for Team Members and communities with a focus on underrepresented groups by 2030
- Achieve **50%** Gender Diversity at our leadership levels globally by 2030
- Achieve **25%** Ethnic Diversity at our leadership levels in the U.S. by 2027

### COMMUNITIES

- Meaningfully impact **20 million** community members by 2030
- Local Support
- Disaster Relief
- Economic Opportunities

### CONDUCT

- Promote responsible, inclusive conduct across **100%** of our value chain operations

---

**RESPONDING TO THE UKRAINE CRISIS**

Our hotels have always been a part of the fabric of the communities that we serve, and during times of crisis, Hilton is there to support our Team Members, guests and communities. In support of the Ukrainian people, Hilton Global Foundation made contributions to World Central Kitchen to provide hot meals within the borders as well as surrounding European countries. In addition, Project Hope served as a boots-on-the-ground partner, providing humanitarian assistance and emergency supplies to displaced people.

Hilton Prague and Hilton Prague Old Town

Hilton Prague and Hilton Prague Old Town have always worked closely together to support the community. After the conflict in Ukraine began, the hotels rallied to support Ukrainian refugees. From collecting donations, to housing and employing refugees and covering the costs of a children’s summer camp, these two properties spread the light and warmth of hospitality to provide a helping hand at a time when Ukrainians needed it most.

As Chef de Cuisine of Estuary at Conrad Washington, DC, Chef Ria Montes is excited to bring a new, innovative take on the seasonal flavors of the Chesapeake Bay Watershed.
**Celebrating our Team Members**

We all want to be part of something bigger than ourselves and be appreciated for our contributions to a collective effort—which is why we believe recognition is so important.

**RECOGNIZING TEAM MEMBERS**

Our Team Members are at the core of our success. Whether through our recognition resources or our signature recognition programs, we strive to celebrate our Team Members’ accomplishments—big and small. Our recognition website provides self-service, customizable resources including printable certificates and cards. To show our appreciation, we also recognize individuals throughout the year with programs such as our annual Team Member Appreciation Week—a dedicated week to celebrate our employees around the world—and Catch Me at My Best—which encourages guests, managers and peers to recognize Team Members whose actions and attitudes embody our values. In 2022, more than 1.3 million Catch Me at My Best messages were sent.

Two of our most prestigious recognition programs are the CEO Light & Warmth Award and the Hospitality Heroes Award—both of which we expanded in 2022. The CEO Light & Warmth Award is our company’s top honor for Team Members who have brought our Purpose and Values to life. Individual winners receive $10,000, three free night stays, and diamond status for three years. Team winners receive $1,000 per Team Member. In 2022, we celebrated 15 individual winners and two teams. The Hospitality Heroes Award recognizes the true heroes among us who have made a lasting impact by acting in moments of crisis or helping to make a guest’s dream come true. Winners receive a $300 cash prize. This year, we celebrated 56 winners out of thousands of nominations from more than 1,000 hotels across 87 countries.

**Catch Me at My Best**

“I’m always filled with incredible energy during Team Member Appreciation Week. It makes me feel proud to be appreciated for my work. When you love your job, it’s the best gift you can give yourself.”

*Team Member in Türkiye*

*Linen Room Attendant in Türkiye*

**Thrive at Hilton International Housekeeping Week**

Around the world, our housekeeping teams are at the heart of the unforgettable experiences we create for our guests. Our Team Members elevate housekeeping to an art form, such as the amazing towel art during our International Housekeeping Week celebration.

Maximizing internal mobility is critical to build a robust talent pipeline. In 2022, 56% of Global Corporate Director and above roles were filled internally and 50% of U.S. Owned & Managed General Manager roles were filled internally.

“I would like to go to college for a hospitality degree. I came to the United States for a better opportunity and to develop in my education. Hilton, thank you for the opportunity for a better life.”

Merarys Alcantara
Housekeeping Supervisor, Hilton Miami Airport

Help Team Members learn, lead and grow in areas that cultivate personal fulfillment and support the needs of our business. Guild continues to pick up momentum with 2,753 total profiles completed, 1,479 applications submitted, 454 Team Members enrolled, and 91 graduates (as of 12/31/2022).

Our goal is to continuously upskill, reskill and multi-skill each Team Member, always seeking to set them up for development and growth within our company. We do this through our robust Job Skills training platform—a consistent, one-step location for our Team Members to locate digital training checklists, and mobile-enabled resources. We understand that not everyone learns in the same way, and some Team Member workdays are not conducive to sitting in front of a screen. For example, Job Skills training for Housekeeping Team Members includes audio guides in multiple languages that Team Members can listen to while completing a room cleaning at their hotel—providing on-site, on-demand learning opportunities that are comfortable and accessible.

We are committed to investing in our Team Members’ future. In May 2022, we proudly became the first in our industry to partner with Guild Education to provide U.S.-based Team Members with debt-free, continuing education opportunities. From day one of employment, Team Members in the U.S. can choose among Guild’s over 70 programs—including professional certificates, college preparatory classes, high school completion courses, and English language learning. This program roster has been curated to help Team Members learn, lead and grow in areas that cultivate personal fulfillment and support the needs of our business. Guild continues to pick up momentum with 2,753 total profiles completed, 1,479 applications submitted, 454 Team Members enrolled, and 91 graduates (as of 12/31/2022).

Enabling our Team Members to Thrive at Hilton

We know that when our Team Members thrive, so do our guests and our communities. That is why we are committed to providing industry-leading programs that deliver a fully human experience and create the best, most inclusive home for our Team Members.

INVESTING IN OUR TEAM MEMBERS’ DEVELOPMENT

At Hilton, we are focused on building a Team Member experience that is rooted in continuous learning—starting from day one. Whether it is learning the ropes during onboarding, building core service skills, or refining job skills, we offer a combination of curriculums that support Team Members in their roles today and prepare them for lifelong careers in hospitality.

Through Hilton University, our online learning platform, all Team Members have access to over 25,000 courses, providing the ability to explore new skills or expand their expertise. We know that leadership skills are important at every stage of someone’s career. That is why all Team Members also have access to leadership development curriculums through our Lead@Hilton platform, which includes on-demand, self-paced content, such as a virtual series that delivers Harvard-led content aligned to critical capabilities identified for different levels of hospitality leaders.

Hilton’s signature Leadership Development programs focus on building effective leaders across the enterprise to grow our bench strength. These programs provide opportunities for participants to develop key capabilities, form networks with senior leaders and enhance their business acumen.

Our goal is to continuously upskill, reskill and multi-skill each Team Member, always seeking to set them up for development and growth within our company. We do this through our robust Job Skills training platform—a consistent, one-step location for our Team Members to locate digital training checklists, and mobile-enabled resources. We understand that not everyone learns in the same way, and some Team Member workdays are not conducive to sitting in front of a screen. For example, Job Skills training for Housekeeping Team Members includes audio guides in multiple languages that Team Members can listen to while completing a room cleaning at their hotel—providing on-site, on-demand learning opportunities that are comfortable and accessible.

Maximizing internal mobility

Maximizing internal mobility is critical to build a robust talent pipeline. In 2022, 56% of Global Corporate Director and above roles were filled internally and 50% of U.S. Owned & Managed General Manager roles were filled internally.
Supporting our Team Members’ holistic wellbeing

Hilton’s commitment to helping Team Members thrive extends to all aspects of physical, emotional, financial, and social wellbeing. We provide a variety of programs to support our Team Members personally and professionally.

PRIORITIZING HEALTH AND WELLNESS

We provide Team Members a space to openly address mental wellbeing through a variety of resources including over 100 leader testimonials. In 2023, we expanded our platform to include conversations around mental health, and ways to seek clinical support if needed. We also offer free counseling sessions to our Team Members and their families through our Employee Assistance Program and a dedicated on-site counselor available to our Corporate Team Members. In addition, we partnered with Thrive Global to provide all Team Members access to an app-based experience, loaded with practical micro-steps and tools to track progress. We have found that this initiative, along with our Team Members who report an increased comfort level in talking about their mental wellbeing with their managers.

In 2022, we built on the success of our mental wellbeing initiative and launched the Care For All platform. This extended our support to Team Members beyond their own self-care and enabled them to better care for others. Through our newly publically available Care for All platform, Team Members and their loved ones can explore articles, podcasts and eCourses, organized by type of care. As we are often not the sole caregivers in our lives, this platform is available publicly so Team Members can share with friends and family.

As a first for the hospitality industry, all full-time and part-time Team Members in the U.S. and the U.K. also have no-cost access to a network of high-quality fertility specialists through our new fertility management services can connect to a network of high-quality fertility specialists through our new insurance benefits partner Progyny, which helps everyone to navigate the process and provide access to the most sought after experience.

EXCEPTIONAL FAMILY BENEFITS

Our Adoption Assistance Program for U.S. Team Members reimburses qualified adoption expenses—up to $10,000 per eligible child, with no limit to the number of adoptions. Bonding time is one of the most important times—and because of this, our Maternity and Parental Leave Programs provide eligible Team Members with paid time off to recover after having a baby and to spend time with their new family. Birth parents get 12 weeks of paid time off. Non-birth parents including adoptive parents get four weeks of paid time off.

To support U.S. Team Members who need to travel for work, we offer Milk Stork which makes it easy for business travelers to ship or carry breast milk home, at no cost. Additionally, through our partnership with Bright Horizons, corporate Team Members can reserve high-quality, in-home emergency backup care for children, pets, adults or elder relatives.

CAREERS

Starting and growing a family can be one of the most exciting experiences one can have, but we know it can also be stressful. That is why we offer a suite of programs, from leave benefits to educational resources, targeted at working parents.

Through our partnership with Thrive Global, we offer an eCourse Thriving Parenthood, which provides all Team Members globally with resources ranging from family-building to re-integrating into work. Starting in January 2023, U.S.-based Team Members seeking family-building and fertility management services can connect to a network of high-quality fertility specialists through our new insurance benefits partner Progyny, which helps everyone to navigate the process and provide access to the most sought after experience.

Team Members will receive one month off and $5,000. This experience is an opportunity to take time off and live a dream by pursuing a passion, to develop their hospitality skills, or to give a dream by helping others.

THRIVE SABBATICAL “GIVE A DREAM”:

Team Members will receive one week off and $2,000. This experience is an opportunity to “pause” and recharge.

THRIVE RESET “LIVE A DREAM”:

Team Members will receive one week off and $2,000. This experience is an opportunity to take time off and live a dream by pursuing a passion, to develop their hospitality skills, or to give a dream by helping others.

THRIVE REBOOT “LIVE A DREAM”:

Team Members will receive one week off and $2,000. This experience is an opportunity to take time off and live a dream by pursuing a passion, to develop their hospitality skills, or to give a dream by helping others.

We also encourage our Team Members to recharge through our Go Hilton travel program, which offers Team Members, as well as their family and friends, significantly discounted hotel rates. Go Hilton gives Team Members the chance to take dream trips that otherwise might have been out of reach, meet colleagues around the world, and create new memories while enjoying life-changing travel experiences.

Team Members’ spouses or domestic partners can now use the exclusive Team Member rate even when the Team Member is not present for the stay. Also, each Go Hilton stay now includes an additional $1 USD charge per room per night to support the Team Member Assistance Fund (TMAF) and Hilton Global Foundation.

"Wellthy has been a trusted resource as I explore in-home caregiving options for my mother. My consultant has helped me with posting the opening, interviewing, background, pay and taxes, fully leveraging benefits, and providing context and perspective along the way. Thank you Hilton for such a fantastic benefit as many of us are now caring for children and our parents.”

Team Member in the U.S. participating in Wellthy

13,558 hours saved by using Wellthy since launch, nearly 600 signups and 150 care projects

We recognize the importance of encouraging our Team Members to take time away from work. In 2023, we expanded our Thrive Sabbatical program to two offerings, both of which give Team Members the time and resources to Thrive. Twenty Team Members will be selected—10 from each of the following experiences
Building a diverse, equitable and inclusive workplace

We believe diversity makes us stronger, more innovative, and more representative of the many guests and communities we serve around the world. We are proud to create a culture where all are welcomed and celebrated.

To achieve our vision of Diversity, Equity & Inclusion (DE&I), we have set ambitious commitments, built accountability mechanisms into our business, established strong partnerships, and developed targeted training, hiring, and work culture development programs to cultivate talent from all backgrounds.

Our Progress

- 40% Women
- 19% Ethnic Diversity

A Firm Commitment to an Ambitious Agenda

As part of our DE&I efforts, we released our representation commitments and shared detailed workforce demographics on our diversity website. By the end of 2027, we are committed to achieving global Gender Parity and 25% U.S. Ethnic Diversity at our corporate leadership levels. By publicly sharing this data, which is updated annually, we encourage transparency and accountability, and ensure we remain focused on making progress.

We strive to create an environment where every Team Member can feel at home. Our leaders play an active role in how we bring our bold agenda to life, and they are committed to building an inclusive organization through effective talent management practices. Because of this, part of leader compensation is tied to progress against our diversity representation goals.

To ensure inclusivity and to remove bias throughout our U.S. recruiting and hiring process, we strive for external candidate slates representing 50% Gender Diversity and 33% Ethnic Diversity.

Cultivating an Inclusive Work Culture

We invest in several programs that celebrate diverse backgrounds and help to create the most inclusive home for our Team Members. These include allyship training, our Team Member Resource Groups, Courageous Conversations, mentorship, and benefits that bolster human relationships such as paid parental leave.

Team Member Resource Groups

Our Team Member Resource Groups are voluntary groups that build communities across our workforce, provide professional opportunities to Team Members, and foster innovation in our business. This year, we hosted heritage months to celebrate, share, and reflect on our diversity.

ELEVATING AWARENESS AND ALLYSHIP THROUGH TRAINING
A great place to work creates a sense of belonging and acceptance—regardless of background, ethnicity, age, ability, gender, or sexual orientation. We train for that.

Hotel and corporate Team Members are required to complete annual training as part of Hilton’s commitment to an inclusive and respectful environment for all. This includes:

1. DEI/UNCONSCIOUS BIAS TRAINING to build awareness of the implicit bias all humans have and how to overcome this to create an inclusive environment for all. This includes our Hilton-designed, bespoke training program, Creating Intentionally Inclusive Guest Experience. Training is based around hospitality scenarios, so our Team Members are best prepared to relate and apply what they’ve learned.

2. PREVENTING HUMAN TRAFFICKING TRAINING to learn the signs of human trafficking for sexual or labor exploitation and know how to take action.

3. CODE OF CONDUCT TRAINING to reinforce our value of integrity and maintain the highest ethical standards.

4. HARASSMENT-FREE WORKPLACE TRAINING to create a positive environment for all, avoiding actions which create a hostile workplace. This work is never done. We remain committed to listening, learning, and leading to create a welcoming and hospitable experience for all Team Members and our guests.

EXTERNAL RECOGNITION
We are proud to be recognized for our Hilton culture:

#1 Ranking, 2021 DiversityInc
Top 50 Companies for Diversity

Inducted into Top 50 Companies for Diversity Hall of Fame

#1 Ranking for ESG by DiversityInc

Great Place to Work® (GPTW)

#2 World’s Best Workplace

#1 Best Place to Work in six countries

Ranking in 29 countries and certified in 25 others

GPTW & Fortune

#2 Best Place to Work in the U.S.

FIFTH CONSECUTIVE YEAR

#1 Best Place to Work for Women in the U.S.

Courageous Conversations
We believe our team is stronger for the diverse experiences and perspectives each of us brings to the table. Throughout the year, we continued fostering conversations among Team Members on complex social justice and mental health issues through a program called Courageous Conversations. These live, candid conversations focus on a range of topics, including race, gender, age, physical and mental ability, allyship, and a host of other important issues. The program, which began in 2020, has included internal stakeholders as well as external thought leaders. Thousands of Team Members have taken advantage of the live and recorded sessions.

Sharing the Diverse Perspectives of our Team Members
We amplify our Team Members’ voices on our careers blog and social media channels to celebrate the rich diversity of our Hilton family and the inclusive environment we are fostering around the world.

ALVARO SURPRISE FLASH MOB
Most Alvaro Lopez, a Public Area Attendant at the Hilton Orlando Convention Center in Orlando, Florida. Although it is not in his job description, Alvaro has brought his favorite thing to his job at Hilton dance. He dances around the pool to the DJ, energizing and delighting Hilton guests along the way. To thank Alvaro for the joy he brings to everyone around him, the team at Hilton came up with a meaningful way to recognize him—by organizing a surprise dance mob during one of his weekend shifts.

“During Travel with Purpose Week, our clients said our work with Courageous Conversations for outweighs any other initiatives we’ve undertaken. Hilton is setting us apart and above the rest.”

Anonymous Team Members
Participants in Courageous Conversations

“In celebration of Intergenerational Month and Hispanic Heritage Month, the Hilton Hispanic/Latinx and Generations Team Member Resource Groups co-hosted a panel event highlighting Hispanic and Latinx chefs across our Americas properties. The event explored the unique career journey of each chef, the role that cooking played among their families, and the flavors of their Hispanic culture that they incorporate into their menus and dishes.”

Enabling pathways and career readiness for all

Hilton has always strived to reflect the global communities where we live and work, and to attract the best talent in hospitality by building a culture that truly is “for all, by all.”

677,359 learning and career growth opportunities created in 2022 against our 5 million commitment.

TARGETED PARTNERS AND INITIATIVES

We believe it is our calling to engage people in the hospitality industry, providing future Team Members, regardless of background, the opportunity for a long-term, exciting career with Hilton—one that could change their lives and the lives of those around them. We support this purpose through partnerships with racial and social justice organizations, university scholarship programs, and our Pathways Program Office, which is focused on expanding our current pathways programs and stewarding the creation of new pathways for future Team Members to join Hilton.

The Pathways Program connects with historically underrepresented talent to help foster economic mobility and support diversity efforts across our organization. Around the world, a sampling of targeted partner and initiatives includes:

MORRIS BROWN COLLEGE

This 140-year-old HBCU campus in Atlanta is the site of a flagged Hilton property and training complex for its growing hospitality management program. Students gain valuable, hands-on experience at the hotel.

OPERATION: OPPORTUNITY

Through this program, founded in 2013, we remain committed to being an employer of choice for U.S. military veterans and their families through several unique initiatives. To date, we have hired more than 35,000 veterans and family members.

AARP PILOT / ENCORE CAREERS

We are partnering with AARP and the AARP Foundation to provide employment opportunities for seniors who are changing careers or retirees looking for part-time or “gig” work.

THE TENT PARTNERSHIP FOR REFUGEES

We are committed to using our resources and tools to help support refugees—including recent Afghan and Ukrainian refugees. We are working with resettlement groups and the Tent Partnership for Refugees to offer employment opportunities to support these individuals as they build new lives in the U.S. As a Tent partner, Hilton has committed to hiring 1,500 refugees in the U.S. by September 2025.

DC Central Kitchen’s Culinary Job Training program offering second chances

After Joseph Tolbert was released from prison, he enrolled in DC Central Kitchen’s Culinary Job Training program in 2015 and found the opportunities he needed to strengthen his natural leadership abilities. Since his time with Washington Hilton, Joseph has found more opportunities to build his leadership skills as both the hotel’s union representative and a Board Member of DC Central Kitchen. Now, Joseph is taking the next step in his leadership journey after being selected for Hilton’s prestigious management development program, a nine-month training program that will train him for a top management position at one of Hilton’s larger, premiere hotels.

“IT’S AMAZING TO ME. I WENT FROM BEING A TWO-TIME CONVICTED FELON TO A VALUED EMPLOYEE AND A LEADER FOR MY TEAMMATES. NOW, I HAVE THE CHANCE TO MANAGE MY OWN TEAM.”

Joseph Tolbert

Student at Hilton’s Management Development Program,
Washington Hilton
Creating opportunities for underrepresented groups

Many of our career opportunities programs extend beyond our own Team Member community. We have long been committed to providing skills training and job opportunities for populations that are traditionally underrepresented or under supported in the workforce, such as youth, refugees, women, minorities, persons with disabilities, and other groups. These are just a few examples of initiatives Hilton supported in 2022 that helped our community members forge their own paths to success.

Passport to Success (PTS) Concierge:
This free online course prepares young people with the critical life skills needed to succeed in the hospitality and tourism sector. Created by the International Youth Foundation (IYF) in collaboration with the Hilton Global Foundation, the course is offered in Arabic, English, French and Spanish.

The Key: An Introduction to Hotel Ownership:
We relaunched our Introduction to Hospitality program as “The Key: An Introduction to Hotel Ownership” to help enhance DE&I efforts among our ownership community. The one-and-a-half-day event was kicked off with a networking welcome reception, which included Hilton leaders, industry partners and attendees. The second day consisted of a full day of education, starting with our special guest speakers Kevin Jacobs and Matt Schuyler, with a surprise appearance by CEO Chris Nassetta.

When it comes to our Refugee Pathways Program, Hilton Austin is leading the way

The Hilton Austin team has worked tirelessly to foster a culture of awareness and inclusion to ensure these new Team Members feel right at home. They have identified tenured Afghan Team Members to assist with translations for onboarding and mentoring, created job-specific pictorials of commonly used items to help teach English words, and provided space and time for prayer in accordance with the Muslim faith. The culinary team provides halal menu options in the Team Member café.

Refugee finds new home at Hilton

Abdul worked with the U.S. military as a translator and cultural advisor in Afghanistan before he fled the Taliban. In 2022, he and his family moved to Virginia, where he got a job at the Hilton McLean as a Safety & Security Manager. Abdul’s skills and experience made him an ideal fit to oversee the security of our guests in McLean and an another example of our Refugee Pathways Program in action.

In conversation with Adam Grant during Hilton’s sponsored ad as a part of “Re-thinking with Adam Grant,” one of our Team Members shared her direct experience working with our Refugee Pathways Program.

“We have such a great culture here, everybody is so caring—sometimes these Team Members don’t believe in themselves, but we have done everything we possibly can to help them. That’s what, to me, hospitality is about.”

Bea Jaramillo, Hilton Austin, HR Director

558 total refugee hires since program launch in EMEA and the U.S.
A force for good: thinking globally, acting locally

EXPANDING OUR TEAM MEMBER ASSISTANCE FUND

Hilton was founded on the belief that our hospitality has the power to be a force for good in this world and, with the mission to provide financial relief, globally, to individuals impacted by natural disaster, personal hardship and crisis instances, the Team Member Assistance Fund (TMAF) is an extension of that commitment.

In August 2022, Hilton expanded its TMAF program to provide further assistance to its Team Members. In addition to continuing to support Team Members following disasters, the expanded program now enables the TMAF to support those experiencing undue financial hardship due to an unexpected personal circumstance such as the unexpected death of a spouse. Over its nine-year history, the TMAF has distributed nearly $3M to 3,600+ Team Members.

BUILDING OYSTER REEFS IN LOUISIANA

Wetlands in Louisiana are disappearing, and rising water is eroding delicate shorelines. Team Members from the Hilton New Orleans Riverside partnered with the Coalition to Restore Coastal Louisiana to incorporate recycled oyster shells (some from Hilton restaurants) to build oyster reefs. Not only does this keep shells out of landfill, but it also helps to slow coastal land loss.

PLASTIC PREVENTION IN U.A.E.

The DoubleTree by Hilton Ras Al Khaimah Team, in partnership with Ras Al Khaimah Waste Management, conducted a beach cleanup to prevent plastic and other waste from getting washed into the sea.

CULTIVATING SUSTAINABLE DAILY HABITS

Hilton Queenstown Resort and Spa and DoubleTree by Hilton Hotel Queenstown implemented an environmental challenge for Team Members to complete 10 tasks over a week, including carpooling, having two-minute showers and eating vegetarian meals. The Team Member with the most points was named as the Sustainability Queen/King.

DISASTER RELIEF

With our broad global footprint, hotels in the community are often the best positioned to provide support when a disaster hits. Through our Hilton Global Foundation and strategic partnerships with local organizations, we provide disaster relief and help rebuild infrastructure for communities to become more resilient.

In 2022, we responded to crises and disasters across the globe, including war, weather events, and the COVID-19 pandemic. The HGF granted $110,000 to World Central Kitchen and Project HOPE, for example, to support on-the-ground relief efforts in response to the Ukraine Refugee Crisis and Hurricane Ian in Florida.

About Travel with Purpose Week 2022

Waldorf Astoria Los Cabos Pedregal Turtle Nursery Program
Supplier diversity at work

We believe that the strength of our business and the trusted reputation of our brands is rooted in our efforts to advance the fight for economic empowerment.

FOSTERING AUTHENTIC SUPPLIER DIVERSITY

Our industry-leading Supplier Diversity Program, ranked as #13 by DiversityInc in 2022, is the cornerstone of our company’s commitment to experience a world that is bigger than ourselves. Since the program’s inception 10 years ago, we have made meaningful connections with more than 2,400 small, disadvantaged, or minority, veteran, LGBTQ, women and disabled-owned businesses. To date, our supplier spend with these valued partners has nearly exceeded $334 million.

We believe our supplier community should reflect the diverse communities in which we all live, work and travel. As such, we leverage the Supplier Diversity Program to forge strategic partnerships, host inclusive events, and offer valuable resources to overlooked businesses. HSM works closely with partners and collaborators to identify new opportunities to expand our network of certified diverse suppliers and to increase our engagement with other like-minded organizations.

We know a more diverse Hilton means a stronger Hilton, and we seized many opportunities last year to expand our focus on diverse suppliers while extending the reach of our customers. We take seriously our responsibility to authentically promote inclusion, support and respect in a global community that grows more diverse by the day.

LOCAL SOURCING

In 2022, our Europe and Middle East regions identified local sourcing as a strategic opportunity. Our hotels can have a powerful impact in their communities by investing in products from local artisans, farmers and small businesses while enhancing the experience for their guests. For example, hotels may commission artwork from local artisans, procure food and beverage ingredients from local farms or fisheries, or feature local products in hotels.

In partnership with agri-tech platform Fresh On Table, the UAE HSM and Food & Beverage teams committed to sourcing 350 tons of local produce for its hotels. To meet this goal, 22 properties across the country committed to procure a minimum of 19 ingredients exclusively from UAE farms—with Fresh on Table acting as the catalyst to source fresh fruit, vegetables, dairy and poultry from farms across the Emirates. The team purchased no fewer than 173 line items across 32 properties, equivalent to 400 tons—with an impactful saving of nearly 9 million kilograms of carbon dioxide equivalent and more than 127 million food miles throughout the year. Furthermore, the successful launch of a local egg program across the Emirates has resulted in nearly 6 million eggs being served to Hilton guests, sourced from Emirates Poultry Farm.

DATA TRACKING FOR INSIGHTS

Hilton understands the importance of data tracking and reporting as the means to quantify our goals. In Europe, the HSM team piloted a detailed evaluation of local sourcing in Austria, Germany and the Netherlands, reviewing 13 suppliers and more than 10,000 unique items in total. The team discovered that bakery items were the most locally sourced product category in these countries, with 70% of items sourced within their respective countries. Meat was locally sourced at 53% on average, and produce was calculated at 45%. Fish was identified as the strongest area of opportunity for local sourcing.

Across the three countries, the current local sourcing average was 13%, with potential for improvement. This data and these insights will be leveraged to influence future decisions to strengthen local supplier enablement and reduce our carbon footprint.

Celebrating local culture

DoubleTree by Hilton, Weerawila Rajawarna Resort

The newly built resort stimulates Sri Lankan skills and craftsmanship by interweaving the environment and local culture of the village of Weerawila. Villagers are hired to prepare local food such as “hoppers,” while fermented buffalo milk, a local delicacy, is featured in the menus. Handicrafts made by locals from natural plants and weeds found along the canals are given to guests as mementos.

† Where reasonably cost-competitive and sustainable product alternatives are readily available at scale.

‡ Total output based on national economic multiplier.

* Wages are determined based on NAICS code of the supplier.

** Total supplier diversity spend equivalent and more than 127 million food miles throughout the year. Furthermore, the successful launch of a local egg program across the Emirates has resulted in nearly 6 million eggs being served to Hilton guests, sourced from Emirates Poultry Farm.
Protecting human rights and freedoms

As a business of people serving people, protecting human rights is essential.

Our universal respect for inherent freedoms is outlined in our Human Rights Principles, aligned with the United Nations Guiding Principles for Business and Human Rights (UNGPs). Our requirements are further established in our Code of Conduct and Responsible Sourcing Policy, and include the prohibition of all forms of forced labor, bonded labor, child labor, slave labor, human trafficking, and recruitment fees from within the Hilton value chain. Our latest Slavery and Trafficking Statement describes our approach to human rights in greater detail.

ADDRESSING RISKS IN OUR HOTEL OPERATIONS

We recognize that hotels around the world are at risk of being used by traffickers for commercial sexual exploitation and that labor exploitation can occur in our own operations and supply chain. To mitigate these challenges, we are focused on mapping our risks, educating stakeholders, maintaining updated policies, establishing effective grievance mechanisms and collaborating with leading organizations.

Mapping our risks

We have mapped all of our hotels and supply chain against external human risk indices from Verisk-Maplecroft that inform us on both our operational and sourcing risks. Our Safety and Security team also tracks human rights risks, such as risks of human trafficking for all our managed and franchised hotels. Having an accurate assessment helps us focus our efforts in areas with the highest risks.

Mitigating risks in our development pipeline

While Hilton does not own or manage the construction of our hotels, we provide our owners and business partners with tools to identify and manage human rights risk within their own supply chains. For all new countries we enter, we conduct country-level due diligence and develop appropriate risk mitigation plans to protect against human rights risks, including unfair labor practices, across our new property developments.

IN 2022

- 98% of managed hotels completed Diversity & Inclusion/Unconscious Bias and creating a Harassment-Free Workplace training
- 100% of managed and franchised hotels mapped for numerous human rights risks, including modern slavery, women’s & girls’ rights, child labor, forced labor, freedom of assembly, indigenous people’s rights and human trafficking
- 98% of managed hotels completed training on preventing human trafficking

EDUCATING OUR EMPLOYEES

We strive to raise awareness about threats to human rights within Hilton operations to avert risks of forced labor, trafficking, modern slavery, or other human rights issues. In 2022, more than 294,000 managed and franchised hotel Team Members were trained in the following key areas:

HUMAN TRAFFICKING: Since 2011, we have remained proud supporters of ECPAT and signatories to the ECPAT Tourism Child-Protection Code of Conduct. All hotel-based Team Members must complete ECPAT’s preventing human trafficking training on an annual basis. Our program raises awareness of human-trafficking processes and signs, empowers our Team Members to be vigilant and communicative, and highlights resources that can used for reporting potential activity.

MODERN SLAVERY: We also developed the hospitality industry’s first tailored training in 2018 to identify “Key Risks of Modern Slavery in Labor Sourcing” and donated the training to members of the Sustainable Hospitality Alliance. Within Hilton, this training is available to all Team Members, and is mandatory for Team Members in EMEA directly involved in recruitment and outsourcing.

It’s a Penalty Campaign

In 2022, Hilton continued to work with It’s a Penalty to advance our shared goal of protecting human rights through educational outreach at high-profile sporting events and campaigns globally. In June, Hilton Birmingham Metropole welcomed more than 100 guests including media and sports ambassadors to a launch event ahead of the start of the Commonwealth Games in Birmingham. As part of Hilton’s support for the important campaign, Team Members at the hotel completed specialist training to spot the signs of human trafficking.

Similarly, in January 2023, Hilton’s Safety and Security Team, along with It’s a Penalty, hosted a training and media event to prepare for the influx of travelers during the Super Bowl outside of Phoenix. The Arizona Biltmore donated a ballroom to the event, welcoming more than 25 local Hilton hotels and training 125 Team Members.

Supporting trafficking survivors

In 2022, the Hilton Global Foundation announced a donation commitment of $500,000 toward the American Hotel & Lodging Foundation’s No Room for Trafficking’s Survivors Fund over the next three years, growing the fund by 50%. The program will equip community-based organizations with the resources they need to engage and support trafficking survivors—from direct financial support of their short-term, baseline needs to career-related support that can set them up for stability and success.
Advancing a responsible, sustainable supply chain

With global operations spanning 123 countries and territories, we recognize the importance and opportunity to drive positive economic, environmental and social impact across our supply chain.

Hilton has ambitious supply chain goals to advance responsible and sustainable sourcing. We directly engage with suppliers on their ESG strategy, conducting due diligence upstream and downstream to ensure our partners are committed to responsible business and sustainable operations. We leverage our Hilton Responsible Sourcing Policy by including it in all supplier contracts and requiring all companies to meet these minimum ESG standards.

### Advancing animal welfare

As outlined in our Animal Welfare Statement, Hilton strives to work toward the legal, ethical and humane treatment of animals across our value chain—operations, supply chain and communities. Our areas of focus are procedures to prevent the mistreatment of animals at all times, including when they are raised, cared for, transported, and processed.

### Buying ugly vegetables

Conrad Centennial Singapore currently procures “ugly vegetables” as well as plant-based eggs and meats for their menu. “Ugly vegetables” are those that appear oddly shaped and are often discarded from the supply chain due to the perception that they will be undesirable for consumers, though they have no nutritional or cooking limitations other than their appearance. The property also purchases fresh vegetables from local suppliers as often as possible, including from an urban rooftop farm at a local school.

### Sustainable oyster farm tour

The HSM team joined seafood distributor Congressional Seafood to tour local oyster hatcheries along the Chesapeake Bay. In the shellfish industry, as consumer demand continues to rise, oysters raised sustainably in aquaculture developments supplement traditional harvesting without putting additional pressure on the wild oyster population.

### ASSESSING SUPPLIER ESG RISK AND PERFORMANCE

Our global procurement and supply chain services team, Hilton Supply Management (HSM), engages a collaborative platform, EcoVadis, to assess, track and improve our suppliers’ sustainability performance. In particular, we prioritize evaluating our high-spend and high-risk suppliers, concentrating on their business practices related to environment, labor and human rights, and ethics.

“High spend” includes suppliers with whom HSM’s contracted annual spend is greater than $1 million USD. “High risk” includes suppliers providing Hilton with labor, rubber, cocoa, packaging, paper, textiles, and/or crops (e.g., tea, coffee, soy, palm oil, rice, cotton, bananas).

High-spend and high-risk suppliers are required, by contract, to meet Hilton’s EcoVadis program and meet threshold requirements. HSM has also started to take into consideration the ESG performance of suppliers in the “request for proposal” process (typically receiving a 5–10% weighting of the overall score).

As a supplier, Hilton undergoes EcoVadis sustainability assessment annually. In 2022, Hilton was awarded a Gold Medal, signifying a score in the top 5% of those assessed.

In 2022, we launched a pilot with MindClick to evaluate the social and environmental performance of vendors and their specified products across focused-service and all suite brands within three product categories. These findings will be used to influence future decisions on hotel design and product selection.

---

“Stakeholders increasingly expect us to make responsible business decisions that contribute to worldwide positive impact, and it is our responsibility not only to meet this expectation, but to exceed it. Responsible sourcing continues to be at the forefront of HSM’s business—prioritizing ESG standards at every stage.”

Anu Saxena
Senior Vice President, and Global Head.
Hilton Supply Management
We are committed to best-in-class governance practices that ensure we operate with accountability, integrity and transparency in everything we do. Everyone—from our CEO and board to Team Members—joins forces to integrate responsible hospitality principles into the way we do business. To keep that promise, we consistently measure our progress toward our goals and use that data to assess risk and drive decision making.
The Hilton Team in the United Arab Emirates practicing responsible sourcing of food.

BOARD COMPOSITION AND INDEPENDENCE
Everyone at Hilton is responsible for integrating the Travel with Purpose philosophy into our business and, to make this happen, we put structures in place to leverage multiple governance mechanisms.

The board of directors directs and oversees the management of our business and affairs in a manner consistent with the best interests of Hilton and its stockholders.

As the decision-making body, they select and oversee our members of senior management and exercise direct oversight of strategic risks. Our CEO Chris Nassetta serves as the only executive member. The lead independent director serves as a liaison between the CEO and independent and non-management directors—whereas 78% of directors are independent.

The board is supported by a fully independent Audit Committee, Compensation Committee and Nominating & ESG Committee.

The board conducts annual self-evaluations to determine whether it and its committees are functioning effectively as required by applicable law and the rules of the New York Stock Exchange (NYSE). The board also periodically considers the mix of skills and experience that directors bring to the board to assess its overall strength. Each committee conducts an annual self-evaluation that compares the performance of the committee with the requirements of its written charter, and the committees report the results of these assessments to the board.

Further information on our board composition can be found in the Governance section of our 2022 Proxy Statement and in our Corporate Governance Guidelines.

Our ESG efforts are supported by a robust corporate governance structure, designed to enhance the longevity of our business, and ensure our objectives are fully embedded in our priorities.

PUBLIC AFFAIRS
Advocate for public policies that advance our Travel with Purpose goals

PARTNERSHIPS
Create and partner with cross-industry networks to advance Travel with Purpose objectives

POLICIES & REPORTING
Operate through best-in-class measurement (LightStay), governance and oversight
**ESG Governance Structure**

- **Board of Directors**
  - Sets strategic direction, oversees ESG performance, reviews the ESG strategy on an annual and as-needed basis, and ensures the business is managed ethically and responsibly.

- **Board Nominating and ESG Committee**
  - Reviews and assesses the ESG strategy, practices and policies on a quarterly basis, and makes recommendations to the board as appropriate.

- **CEO and Executive Committee**
  - CEO is accountable for ESG-related issues and decisions.
  - Executive Committee (EC) approves major ESG programs and monitors progress toward 2030 Goals. Chief ESG Officer oversees ESG strategy and reporting efforts, is a member of the EC, and reports directly to the CEO.

- **ESG, Hilton Global Foundation, and Public Affairs teams**
  - Establish and oversee implementation of ESG strategies and serve as subject matter experts on integration of ESG into overall business objectives. Continually assess and report progress against 2030 Goals.

- **Integrating ESG into our Business**
  - Hilton integrates Travel with Purpose into our business using multiple governance mechanisms including policies, committees and networks.

---

**INTEGRATING TRAVEL WITH PURPOSE INTO OUR BUSINESS**

**Policies:**
- Our policy statements govern our ESG programs and establish our expectations for Team Members and business partners.

**Brand Standards and Requirements:**
- Our Brand Standards establish requirements for our hotels, including franchises: ESG-related requirements include use of LightStay, completing anti-trafficking training, recycling soap, purchasing locally sourced products, and protecting endangered species.

**Committees:**
- Leaders across our ESG, Engineering, Operations, Brand and Internal Audit departments are responsible for overseeing global adherence to ISO 9001 (Quality Management), ISO 14001 (Environmental Management) and ISO 50001 (Energy Management).

**Advisory Boards:**
- The Hilton Global Foundation Board and Advisory Committee is composed of leaders across the business who provide input on the alignment of our philanthropic efforts with business priorities.

**Networks:**
- The Travel with Purpose Champions Network is a cross-functional team of hotel and corporate leaders that guide the integration of Travel with Purpose across the business. These Team Members make a special commitment to advancing our 2030 goals across the enterprise. Champions hold a wide breadth of responsibilities, from organizing events to supporting ESG-related activities such as Earth Week or Travel with Purpose Week.
Our approach to advocacy and public policy

We work with industry associations to influence policymaking to help us reach our corporate objectives and Travel with Purpose Goals.

WE ARE THE COMPANY WE KEEP

Hilton and our association partners work together to monitor and shape global legislative and regulatory issues. In 2022, we joined advocacy efforts to advance legislation related to ESG topics including:

- Preventing human trafficking
- Expansion and adoption of EV charging stations
- Tax policy to support energy efficiency upgrades to our hotels
- Immigration and visa reform
- Food waste
- Plastics reduction
- Skills training and apprenticeship programs
- DE&I
- Greenhouse gas emissions disclosures and reporting
- Human rights

As a member of the U.S. Travel Sustainable Coalition and AHLA’s Sustainability Committee, we have a leadership role in setting our industry’s sustainability goals. With this ethos in mind, we continue to engage with our industry trade partners on removing barriers to cross-border travel, jumpstarting business travel and increasing funding for destination marketing organizations, among other priorities.

In 2022, our President and CEO Chris Nassetta served on the U.S. Travel and Tourism Advisory Board (TTAB) advising the Secretary of Commerce on government programs and policies that impact the U.S. travel and tourism industry. TTAB contributed directly to shaping the 2022 National Travel and Tourism Strategy which included a goal of reducing travel and tourism’s impact on climate change. Beginning in 2023, Mr. Nassetta assumed the role of National Chair of the U.S. Travel Association, further amplifying Hilton’s role in shaping the future of the industry. Hilton also engages globally with our industry’s trade associations, including the Hotel Association of Canada, UKHospitality, and the World Travel & Tourism Council, to advance our advocacy agenda and ESG goals.

In 2022, Hilton paid $313,832 in dues associated with lobbying in the U.S. to the trade associations in the table to the right. All payments are publicly disclosed, along with political activity, on Hilton’s Investor Relations website and updated semiannually.

For the second year in a row, Hilton was named a 2022 Trendsetter in the CPA-Zicklin Index of Corporate Political Disclosure and Accountability, a recognition reserved for companies that score 90 points or higher on the index.

Released annually by the Center for Political Accountability (CPA) and the Zicklin Center for Business Ethics Research at The Wharton School at the University of Pennsylvania, the index measures political disclosure and accountability policies and practices for election-related spending by S&P 500 companies, including political spending policies and board oversight.
Partnerships

Our partnerships with key trade associations, business coalitions, and NGOs help us to amplify our impact and make collective progress on our shared goals.

In 2022, our Public Affairs team advocated for policies to address a tight labor market. This includes supporting incremental and comprehensive immigration reform to ensure we have a strong pipeline of talent to help hotels meet their workforce needs. Through our engagement with IFA and AHLA, we highlighted the benefits of franchising as well as the benefits of working in hospitality, including a diverse workforce and opportunities for career growth.

We also advocated for the easing of travel restrictions, including the reopening of international travel and the removal of the pre-departure COVID-19 testing requirement for inbound travelers to the U.S. Together with our partners, we assisted in the advocacy efforts that secured $250 million for Brand USA—the nation’s destination marketing organization—to bring back visitors now that travel has resumed and support our industry’s full recovery.

Accomplishing big-picture goals such as these is no small feat. Hilton needs the support of many international organizations for our mutual economic success, and we engage with the valuable partners included on this page on a routine basis.

Hotel del Coronado’s Ocean Explorers Program allows kids to explore tidepools as a beach activity.
Policies and reporting: ethical conduct matters

We hold ourselves and our partners to the highest ethical standards. We are committed to pursuing the most responsible business practices, acting with integrity, and managing risk, with appropriate board oversight.

A CULTURE OF INTEGRITY

Our ethics and compliance program underpins our entire organization. Our Code of Conduct, which defines our responsibilities to our stakeholders and guides our decision making, is applicable to all Team Members, officers and directors of Hilton, and to the Team Members of all hotels owned, operated or managed by Hilton. All Team Members must complete training on the Code of Conduct and must adhere to following its principles and policies.

Team Members are expected to report suspected misconduct and are encouraged to do so through the Hilton Hotline, available online and by telephone 24/7. The Hotline is run by an independent company. Team Members are allowed to report concerns anonymously unless otherwise required by law. Hilton takes steps to protect the confidentiality of anyone who makes a good faith report of an actual or suspected violation to the extent reasonably possible.

We encourage Team Members to raise concerns about potential violations of our Code of Conduct, including human trafficking or modern slavery.

Any alleged failures to comply with the Code of Conduct are investigated and disciplinary action is taken as appropriate, up to and including termination. The Hotline also is available externally to suppliers, business partners, consumers and community members. Hilton’s Global Compliance team is responsible for conducting intake of all Hotline reports.

ANTI-CORRUPTION AND BRIBERY

Our Code of Conduct explicitly prohibits bribery and corruption, and our Anti-Corruption Policy provides our Team Members with additional detailed guidance regarding the requirements of anti-bribery laws applicable to Hilton, bribery risk areas specific to Hilton business activities, and the responsibilities of Team Members to prevent and report potential bribery.

Our Group Finance, Legal Compliance, Internal Audit, and Risk functions oversee compliance with our anti-corruption and bribery standards, including monitoring and investigating Hilton Hotline matters. Risk-based Internal Audits and other related governance activities are performed at hotels and corporate offices in the U.S., Asia Pacific, Europe, the Middle East and Africa. Additionally, we conduct background checks on all prospective partners.

All Corporate Team Members, General Managers and senior Team Members are expected to actively support anti-corruption policies and practices at corporate offices and properties globally. Certifications of compliance with the Code of Conduct are obtained from all locations annually.

DATA PRIVACY AND CYBERSECURITY

Hilton is committed to delivering the highest levels of customer service, which includes respecting our customers’ privacy and protecting personal information. Our Global Privacy Statement describes how we collect, use and disclose personal information. Our Data Protection Officer, who is dedicated to addressing privacy concerns, sits within Hilton’s Legal Compliance and Privacy team. To protect our customers’ and Team Members’ personal data, Hilton Team Members are required to complete annual cybersecurity and privacy training courses. We engage with third parties to conduct periodic assessments on our cybersecurity at both the corporate and property level, and to perform on-site breach simulation exercises. We also undergo audits to ensure our technology environment remains aligned with the ISO 27001 security control requirements.

As a service provider and merchant under the Payment Card Industry’s (PCI) Data Security Standards (DSS), we undergo an annual comprehensive third-party audit to process billions of dollars in credit card payments. Additionally, the Audit Committee assists the board in monitoring cybersecurity risk by receiving quarterly reports from our Technology team that cover, among other things, our information security framework, threat assessment, response readiness, and training efforts.
EVALUATING AND MANAGING RISK ACROSS OUR BUSINESS

The board of directors has overall responsibility for risk oversight, which includes understanding material risks, management steps to address these risks, and appropriate levels of risk for our company.

- The Audit Committee assists the board in fulfilling its risk oversight responsibilities by regularly reviewing our accounting, reporting and financial practices, including our financial statements, administrative and financial controls, compliance with legal and regulatory requirements, and our enterprise risk management program.

- The Compensation Committee assists the board by overseeing and evaluating risks related to compensation structure and programs, including the formulation, administration and regulatory compliance with respect to compensation matters, and coordinating succession planning discussions.

- The Nominating & ESG Committee assists the board by overseeing and evaluating programs and risks associated with board organization, membership and structure, corporate governance, and ESG matters. In addition, our board receives quarterly detailed ESG performance reviews from management.

EVALUATING ESG-RELATED RISKS

To evaluate ESG-related risks, we map 100% of our hotels and pipeline countries against a series of external environmental and social risk indices that are updated at least annually. Information from these external indices is embedded in LightStay to help every hotel understand the key priority areas in its local operating environment and community.

Material ESG risks, including risks related to climate change, environmental impact, social impact, human rights, and ethics, fraud and corruption are integrated in Hilton’s Enterprise Risk Management Process.

In addition, we conduct an internal Global Enterprise Risk Survey, which is distributed to more than 300 Hilton leaders. The Executive Committee, board of directors, and Audit Committee use its findings to inform enterprise-wide strategic planning. Health and safety risks management systems are utilized across all managed hotels and corporate offices and made available to franchised properties.

Based on the survey results, the ERM team engages with risk owners throughout the organization and with the Enterprise Risk Committee. The results of this risk assessment inform our enterprise-wide strategic planning.

MITIGATING RISK IN OUR SUPPLY CHAIN

Hilton is committed to promoting and protecting human rights across our supply chain and in countries where we operate. Hilton has developed and piloted an ESG and human rights due diligence program to encourage vendors to meet Hilton’s standards and maintain those standards during the contract term.

Vendors are required to comply with Hilton’s Responsible Sourcing Policy, which includes our Human Rights Principles. We are dedicated to eradicating any form of forced labor and human trafficking, and we partner with cross-industry networks to advance international human rights.
Hilton Park is proud to have been a part of the many important internal infrastructure initiatives implemented and supported alongside the renovation of the Hilton London Metropole. Together, with our world-class partners, we sought to create a conscientious, future-proof concept capable of continuous improvement of the guest experience through an ESG lens.”

Nick Weber
Founder and CEO of Henderson Park, a London-based Hilton owner group

PROVIDING EFFECTIVE SAFETY AND SECURITY PROGRAMS

As part of our commitment to safe and healthy workplaces, Team Members undergo training in workplace safety, security, fire safety, food hygiene and emergency procedures applicable to their regions. All hotels are audited against strict Fire Life Safety Brand Standards, which ensure a safe environment for all who stay, visit or work at our properties. Our managed properties have access to a library of custom-made training courses, available in the School of Safety and Security, while our franchised properties receive pertinent guidance during times of crisis. In addition to a wide range of training resources, managed hotels are able to access a wealth of guidance, procedures and checklists, created by industry experts, to reduce the likelihood of accidents.

SAFETY IN A GLOBAL CRISIS

Prior to the conflict in Ukraine, Hilton was monitoring the growing threat, using a wide range of intelligence tools to prepare contingency measures. Our Team Members and properties in Ukraine received extensive guidance before and during the conflict allowing us to facilitate temporary hotel closures and expatriate evacuations.

Hilton communicates with properties using a customized crisis communication app, Konexus Hilton Alert, which is loaded with step-by-step guidance. This app enables hotels to rapidly escalate an emergency response on property, alerting key corporate stakeholders to initiate high-level safety and rescue procedures. Corporate leaders can also use the tool to poll hotels during a crisis (e.g., an earthquake), generating a rapid assessment of which properties are affected and require assistance.

Responding to security threats in Papua New Guinea

Recently, civil unrest occurred in the city of Port Moresby, capital of Papua New Guinea, following the announcement of elections and a subsequent declaration of a state of emergency. After our safety and security team at Hilton Port Moresby received reports of rioting within local community hubs and universities, and social media was flooded with violent imagery, the team initiated a lockdown in response to the violence, communicating clearly with hotel Team Members, and providing temporary accommodation to those who could not leave the compound as a result of the lockdown. We also facilitated the safe transportation of inbound guests from the airport due to the ongoing rioting. Throughout the period of civil unrest, the team stayed connected with domestic and international intelligence briefs and provided continuous security advice to our guests and Team Members.

Our culture of responsibility

Hilton London Metropole has continued a partnership with WorkFit, a program supporting people who have Dawn syndrome, through a number of work opportunities at the hotel. WorkFit and the hotel have been partnering together for five years. WorkFit also partners with other hotels in the U.K., and a total of 16 WorkFit members who have Dawn syndrome have had an employment opportunity through Hilton.

¹ Reduction in logged 2020 and 2021 volunteer hours is primarily attributable to the temporary closing or suspension of hotels due to the pandemic.
² Figures provided are cumulative impact since 2015.
³ 2021 was an anomalous year. Many hotels faced significant challenges training staff as they continued to experience issues related to the business impacts of the pandemic, including closures, low occupancy, staff shortages and furloughed employees. As lean teams faced conflicting priorities, course completions suffered, as reflected in the data. We also expect some of the reduction to be attributable to under-reporting.
⁴ 2019-2021 human trafficking training numbers are combined managed and franchised. For 2022, we have broken out managed and franchised for greater detail.
While the percentage of hotels in regions with high or extremely high baseline water stress remained consistent at 34 percent between 2019 and 2020, we identified an increase in the percentage of water being consumed in areas of higher water stress. This is partially attributable to some of our larger properties being located in regions that experienced higher levels of occupancy during the COVID-19 pandemic.

Approximately 41 percent of total waste is estimated to be food waste, based on a sample of approximately 50 food waste reduction pilots worldwide. Hilton continues to refine its food waste reporting in alignment with the WRI’s Food Loss and Waste Protocol.

We seek to provide material, decision-useful sustainability information to our investors in line with the recommendations of the Sustainability Accounting Standards Board (SASB).

We considered SASB’s Hotel & Lodging Standards in developing the following table of key sustainability metrics for our managed, owned and leased properties. We also report selected SASB data in our 2022 Form 10-K.
### 2.1 Organization details
Hilton Worldwide Holdings Inc. (‘Hilton’) Hilton is a publicly traded company incorporated in the United States. Our corporate headquarters is located at 7930 Jones Branch Drive, McLean, Virginia 22102 in the United States. At year-end 2022, Hilton managed or franchised hotels and resorts in 123 countries and territories.

### 2.2 Entities included in the organization’s sustainability reporting
- **2022 Form 10-K (Item 1 Business)**
- **2022 Form 10-K (Item 1 Business)**

### 2.3 Reporting period, frequency and contact point
Our reporting cycle is annual and our reporting period is for the calendar year 2022. Our most recent Environmental, Social and Governance report was published 6 April 2023. For more information, contact us at esg@hilton.com.

### 2.4 Restatements of information
None during the reporting period.

### 2.5 External assurance
We recognize that the accuracy and credibility of our data is critical to managing our impact and transparently reporting on our performance. That is why we have worked with DEKRA Certification, Inc. to obtain limited independent assurance over our environmental impact data (greenhouse gas emissions, energy, water and waste) since 2013. Since 2018, DEKRA has also provided limited assurance over selected social impact metrics. Please see our 2022 Assurance Statement for more information.

### 2.6 Activities, value chain, and other business relationships
Hilton (NYSE:HLT) is a leading global hospitality company with a portfolio of 19 world-class brands. As reported in our 2022 Form 10-K, at year-end 2022 Hilton managed or franchised 7,165 properties comprising 1,127,430 rooms in 123 countries and territories. Dedicated to fulfilling our mission to be the world’s most hospitable company, Hilton has welcomed more than 3 billion guests in its 100-year history.

Our premier brand portfolio includes: our luxury and lifestyle hotel brands, Waldorf Astoria Hotels & Resorts, LXR Hotels & Resorts; our lifestyle brand, Aloft Hotels & Resorts; our tapestry collection brand, Tru by Hilton; our full service hotel brands, Signia by Hilton, Hilton Hotels & Resorts, Curio Collection by Hilton, DoubleTree by Hilton, Tapestry Collection by Hilton, and Embassy Suites by Hilton; our focused service hotel brands, Canopy by Hilton; our full service hotel brands, Hilton Garden Inn, Hampton by Hilton, Tru by Hilton, Homewood Suites by Hilton and Home2 Suites by Hilton; our new premium economy brand, Spark by Hilton, launched in January 2023; and our timeshare brand, Hilton Grand Vacations.

In 2022, Hilton was named to the Dow Jones Sustainability Indices (“DJSI”) for the sixth consecutive year, and our timeshare brand, Hilton Grand Vacations. Home2 Suites by Hilton; our new premium economy brand, Spark by Hilton, launched in January 2023; our focused service hotel brands, Canopy by Hilton; our full service hotel brands, Hilton Garden Inn, Hampton by Hilton, Tru by Hilton, Homewood Suites by Hilton and Home2 Suites by Hilton; our new premium economy brand, Spark by Hilton, launched in January 2023; and our timeshare brand, Hilton Grand Vacations.

In 2022, Hilton was named to the Dow Jones Sustainability Indices (“DJSI”) for the sixth consecutive year, receiving the distinction of Top 5% S&P Global ESG Score, reflecting Hilton’s continuous investment in building a leading ESG strategy. What we buy, source, use and serve every day are essential components of the exceptional experience that we aim to deliver to every hotel, every guest, every time. As such, Hilton manages a large global supply chain containing key components, which include food and beverage, information technology, furniture, fixtures, equipment, and operating suppliers (such as linens and apparel).

There have been no significant changes to our organization or our supply chain during the reporting period. Additional information on our supply chain and responsible sourcing efforts can be found in our 2022 ESG Report (Hilton at a Glance, p. 4; Responsible Sourcing, p. 41–44; our Responsible Sourcing Policy and Hilton’s Slavery and Human Trafficking Statement 2021).

</tr>
<tr>
<td><strong>Governance structure and composition</strong></td>
<td>2-9</td>
<td>Our ESG efforts are supported by a robust governance structure, designed to ensure our ESG objectives are an important part of our business priorities as we work towards our 2030 Goals. Hilton’s General Counsel &amp; Chief ESG Officer oversees the ESG department, which is responsible for the company’s sustainability strategy, including Hilton’s strategy for addressing climate change. The General Counsel &amp; Chief ESG Officer reports directly to Hilton’s President and CEO, who is the only company executive on Hilton’s Board of Directors. Our board receives periodic updates from our CEO and our General Counsel &amp; Chief ESG Officer on the company’s ESG strategy and initiatives. Quarterly reports on progress towards the 2030 Goals are provided to the Executive Committee, including our CEO. These reports outline Hilton’s progress towards our Travel with Purpose 2030 Goals, including our science-based targets. The Nominating &amp; ESG Committee, one of the three standing committees of Hilton’s Board of Directors, reviews and assesses our ESG strategy and makes recommendations to the board and management as appropriate. The board also receives annual updates on progress towards our 2030 Goals. Significant ESG risks, including risks related to climate change, natural disasters, supply chain disruption, health and safety, and ethics, fraud and corruption are integrated in Hilton’s Enterprise Risk Management program as part of Hilton’s annual Enterprise Risk assessment process. The results of this process are reviewed by our Executive Committee and our board of directors, including the Audit Committee, to inform enterprise-wide strategic planning. Composition of the highest governance body and its committees can be found can be found here: Hilton Board of Directors.</td>

<td><strong>Role of the highest governance body in overseeing the management of impacts</strong></td>
<td>2-12</td>
<td>Significant ESG risks, including risks related to climate change, environmental impact, social impact, health and safety, human rights and ethics, fraud and corruption, are integrated in Hilton’s Enterprise Risk Management program as part of Hilton’s annual Enterprise Risk assessment process. The results of this process are reviewed by our Executive Committee and our board of directors, including the Audit Committee and the Nominating and ESG Committee, to inform enterprise-wide strategic planning. The Nominating and ESG Committee is the highest governance body in setting purpose, values and strategy (see Nominating and ESG Committee Charter). Our board receives periodic updates on management of Travel with Purpose initiatives. Quarterly reports on progress towards the 2030 Goals are provided to the Executive Committee, including our CEO. We also engage with stakeholders on an ongoing basis to continuously refine and enhance our strategy, to ensure we are aligning our programs with the issues that matter the most to our business and stakeholders.</td>

The board of directors’ Nominating and ESG Committee is responsible for periodically reviewing and assessing the company’s ESG strategy, practices and policies, including its impact on environmental and human rights issues, animal welfare, responsible sourcing and stakeholder engagement. The Committee’s role, responsibility and authority delegated to it by the board are set out in its Committee Charter, and are reviewed and approved annually by the board.

Our board receives periodic updates from management on Travel with Purpose initiatives. Quarterly reports on progress towards the 2030 Goals are provided to the Executive Committee, including our CEO. Hilton’s General Counsel & Chief ESG Officer oversees Hilton’s ESG strategy and reporting efforts, is a member of the Executive Committee and reports directly to the CEO. Our Executive Committee approves major ESG programs and monitors progress towards 2030 Goals, while our CEO is accountable for major ESG-related issues and decisions.

Only by speaking up when we suspect potential violations of law or policy can Hilton address issues before they potentially become bigger problems. We have a confidential hotline run by a third party which provides colleagues with a channel to share any ethical concerns they may have. Colleagues are made aware of this through regular internal communications, training, and through a dedicated website.

The board conducts annual self-evaluations to determine whether it and its committees are functioning effectively as required by applicable law and the rules of the New York Stock Exchange (NYSE). The board also periodically considers the mix of skills and experience that directors bring to the board to assess whether the board has the necessary tools to perform its oversight function effectively. Each committee conducts an annual self-evaluation that compares the performance of the committee with the requirements of its written charter, and the committees report the results of these assessments to the board.

The compensation practices and policies related to the board are detailed in the Corporate Governance Guidelines “Board Compensation.” Our policy for Executive Officers and Directors’ remuneration is set out in the Compensation Committee Charter. It is reviewed annually to ensure it remains aligned with strategic objectives.

Our policy for Executive Officers and Directors’ remuneration is set out in the Compensation Committee Charter. It is reviewed annually to ensure it remains aligned with strategic objectives. Remuneration for some of our hotel leaders is tied to their contributions to Hilton’s ESG Strategy.

The results of votes of stakeholders (including shareholders) on remuneration policies and proposals can be found in our Proxy Statement.

See Proxy Statement (p. 13 and p. 25)

See executive statement in our ESG Report.  
2022 ESG Report (p. 15)

2-23 Policy commitments  
In 2018, we established our 2030 Goals to enhance our social impact and significantly reduce our environmental footprint by 2030 at the hotels that we manage, including our owned and leased hotels. Our 2030 Goals, which align with the global Sustainable Development Goals (“SDGs”) adopted by the United Nations in 2015, are guided by our evaluation of the social and environmental issues that are critical to our business and our long-term success. In 2022, we reevaluated our environmental impact 2030 Goals and set more ambitious targets. Hilton was the first major hospitality company to set science-based targets that were approved by the Science Based Targets initiative (“SBTi”) and the first major hotel brand to obtain revalidation by SBTi. In June 2022, SBTi verified our near-term targets (1.5°C by 2030), which are in alignment with our updated environmental 2030 Goals to cut emissions intensity of our managed hotel portfolio by 75 percent and of our franchised hotel portfolio by 56 percent, with 2008 as our baseline. We continue to work toward our 2030 Goal of reducing water and waste intensity at the hotels we operate, including those that are owned, leased and managed, by 50 percent, with 2008 as our baseline.

Additional information on our management approach, programs, targets and performance can be found throughout our 2022 ESG Report and in our Environmental Policy Statement. Our values, principles, norms and behaviors can be found throughout the following documents:

- About Hilton
- Hilton Code of Conduct
- Hilton Responsible Sourcing Policy
- Hilton Human Rights Principles
- Slavery and Human Trafficking Statement 2021

2-24 Embedding policy commitments  
We outline how our policy commitments are embedded into business activities and relationships in our ESG Report.  
2022 ESG Report (p. 14-15)

2-25 Processes to remediate negative impacts  
Protecting human rights is part of our commitment to promote responsible, inclusive conduct across 100% of our value chain operations. When we become aware of a human rights impact, we immediately dedicate resources to addressing and remediating that impact. Among other things, Hilton may provide training about existing grievance mechanisms, address the root causes of the issue, and remediate individual cases.

2-26 Mechanisms for seeking advice and raising concerns  
Hilton’s policies and practices for responsible business conduct and information on how they are implemented can be found here:

- Hilton Code of Conduct
- Hilton Ethics Point Hotline
- 2022 ESG Report
- Hilton Stakeholder Engagement Policy Statement

2-27 Compliance with laws and regulations  
See Legal Proceedings in 2022 Form 10-K  
2022 Form 10-K (Legal Proceedings, p. 42)

2-28 Membership associations  
Our partnerships with key trade associations, business coalitions and NGOs help us to amplify our impact and make collective progress on our shared goals. A list of our partners is provided in our ESG Report.  
2022 ESG Report (p. 47)
**Hilton Stakeholder Engagement Policy Statement**

We engage with a broad range of internal and external stakeholders on an ongoing basis, including our Hilton Team Members, franchise employees, guests, policymakers, NGOs and international organizations, investors, owners and suppliers. We engage with stakeholders that can help inform and enhance our business and ESG strategy. From developing hotel concepts and products in partnership with owners and guests, to evolving our internal programs to engage Hilton Team Members and build a common culture with franchise employees, to working with governments on policy reforms, to exchanging ideas with conservation organizations on a variety of products in our supply chain, we view stakeholder engagement as an enabler of continuous improvement, innovation and reputation management.

Please see Hilton Stakeholder Engagement Policy Statement and Toward 2030 for more information.

**2022 Form 10-K**

As of December 31, 2022, approximately 30 percent of our employees worldwide and 40 percent of our employees in the U.S. were covered by various collective bargaining agreements generally addressing pay rates, working hours, other terms and conditions of employment, certain employee benefits and orderly settlement of labor disputes.

**2020 Materiality Assessment**

In 2020, Hilton undertook a robust evaluation to assess the ESG topics most material to the company. Through this evaluation, more than 200 relevant ESG topics were identified, examined, and then consolidated into a list of 17 material ESG Aspects aligned to industry guidance and sector trends. To assess the materiality of the 17 Aspects, Hilton engaged nearly 1,500 internal (e.g., Hilton leadership, team members) and external (e.g., NGOs, guests, owners and developers, suppliers, and investors) stakeholders through interviews and surveys.

The results of the stakeholders' feedback were then mapped onto a Materiality Matrix and Stakeholder Priority Map. Results were presented to and reviewed by Hilton's executive leadership, including our CEO and the board of directors' Nominating & ESG Committee.

**Management of material topics**

We disclose our approach towards each of the 17 ESG Aspects and progress in our ESG Report.

Disclosure Number Disclosure Name Response Source
ECONOMIC IMPACTS
201 Management disclosure approach Hilton’s impact on the economy through its business and relationships with various entities including third-party owners and other strategic partners such as management companies and suppliers is detailed in the 2022 Form 10-K.
2022 Form 10-K (Item 1 Business)

201-1 Direct economic value generated and distributedThe direct economic value generated by our business is detailed in our 2022 Form 10-K (Item 1 Business—“Overview”).
As an example, Hilton’s global procurement and supply chain arm, Hilton Supply Management (HSM), works with more than 85,000 Tier 1 suppliers to source over 482,000 products for hotels around the world, servicing over 14,000 properties, including more than 6,600 non-Hilton-branded hotels.
2022 Form 10-K (Item 1 Business)
2022 ESG Report (Hilton at a Glance, p. 6)

201-2 Financial implications and other risks and opportunities for the organization’s activities due to climate change As an operator and franchisor of hotel properties in 123 countries and territories, Hilton is subject to the physical effects of climate change, including sea level rise, droughts and intensified storms and other weather events. Damage to hotels resulting from the physical effects of climate change could lower demand for travel to certain locales and affect the performance of certain hotels, which could in turn have a negative impact on our results of operations.
2022 Form 10-K (Risks Related to Operating Our Business, p. 34)

201-3 Defined benefit plan obligations and other retirement plans Hilton's benefit plan obligations and other share-based compensation expenses are detailed in the 2022 Form 10-K (Note 13. Employee Benefit Plans, Note 14. Share-Based Compensation).
2022 Form 10-K (Note 13. Employee Benefit Plans, p. 96–100)

INDIRECT ECONOMIC IMPACTS
203 Management disclosure approach We have enhanced our existing Travel with Purpose social goals to further commit to the areas where we can have the greatest impact, including supporting career opportunities, community impact, and responsible inclusive conduct across our business. Please view our 2022 ESG Report (Social Impact, p. 32) for further detail.
2022 ESG Report (Social Impact, p. 32)

203-1 Infrastructure investments and services supported Through our Hilton Global Foundation and strategic partnerships with local organizations, we provide disaster relief and help rebuild infrastructure for communities to become more resilient. Please view our 2022 ESG Report (Disaster Relief, p. 40) for further detail.
2022 ESG Report (Disaster Relief, p. 40)
2022 Assurance Statement

PROCUREMENT PRACTICES
204 Management disclosure approach In addition to collaboration across our industry and within the business community, we are focused on achieving change by leveraging the scale of our supply chain. We remain committed to embedding ESG due diligence across our supply chain and partnering with suppliers to advance positive impact in our communities. Furthermore, we leverage our size and scale to expand local sourcing from small businesses and strengthen business with diverse suppliers. Through our award-winning Supplier Diversity Program, we engage women, minority, veteran, disabled and LGBTQ–owned businesses in sourcing opportunities across the company in all categories.
2022 ESG Report (p. 43)

204-1 Proportion of spending on local suppliers One of Hilton’s Travel with Purpose 2030 Goals is to leverage our large global footprint and deep integration within our communities to expand local sourcing and business with diverse and small suppliers. Our hotels continue to advance local sourcing in their communities, with 90% of our brands having a local sourcing brand standard in place.
For a product to be considered locally sourced in the United Kingdom, the product must be made within the United Kingdom. Additionally, in 2022 our Europe and Middle East regions identified local sourcing as a strategic opportunity. Please view our 2022 ESG Report (p. 19, 43) for further detail.
2022 ESG Report (p. 43)
### Economic

**305** Management approach disclosure
- Bribery and corruption are explicitly prohibited in our Code of Conduct, with oversight from our Group Finance and Risk Management functions. Internal Audits are also conducted at the Group’s hotels and corporate offices in Asia Pacific, Europe and the Middle East. In the United States, these audits are conducted by an independent third-party auditor. Additionally, we conduct background checks on all prospective partners. We maintain a whistleblower policy and procedure to encourage the reporting of any inappropriate activity. Any failures to comply with the Code of Conduct are investigated and disciplinary action is taken as appropriate, up to and including termination. All General Managers and senior colleagues are expected to actively support anti-corruption policies at individual hotels and properties. Certifications of compliance with the Code of Conduct are obtained from all hotels annually, with a mid-year update. Please see [Hilton Code of Conduct](#) for more information.

### Environmental

**302** Management approach disclosure
- We are committed to effective energy management and work with our value chain partners to realize long-term energy reductions and sustainable energy procurement.
- Our primary source of emissions comes from the operation of our hotels. In 2022, we saw a resurgence in travel and resulting higher occupancy rates across our global portfolio. As a result, we experienced an increase in utility consumption across energy and water and an increase in waste generation compared to 2020–2021. As the business continues to recover, we aim to remain below pre-pandemic consumption levels and to stay on track to achieve our new and more ambitious 2030 emissions targets. We outline our approach in our [Energy Stewardship Policy Statement](#), and actions taken to mitigate our energy footprint in the 2022 ESG Report.

#### 302-1 Energy consumption within the organization
- In 2022, our total energy consumption was 19.93 million megawatt hours. Please view our 2022 ESG Report (Performance Table, p. 53) for further detail.
- Our 2022 energy data has been externally assured, as noted in our 2022 Assurance Statement.

#### 302-3 Energy intensity
- In 2022, our energy use intensity was 0.2414 megawatt hours per square meter, representing an annual increase of 0.8% per square meter across the Hilton global portfolio of owned, managed and franchised hotels. Please view our 2022 ESG Report (Performance Table, p. 53) for further detail.
- Our 2022 energy data has been externally assured, as noted in our 2022 Assurance Statement.

#### 302-4 Reduction of energy consumption
- Across our global operations (owned, managed and franchised hotels), Hilton has reduced total energy use intensity by 37% since 2008. For our managed portfolio only, we have reduced total energy use intensity by 35.7% since 2008. Reductions in energy have been achieved as a result of ongoing energy conservation activities, efficiency projects, and implementation of innovative energy saving technologies. Refer to our 2022 ESG Report (p. 25, 27) for further detail on our energy performance and energy reduction activities.
As one of the largest hospitality companies in the world, we recognize that we have a significant water footprint and are committed to demonstrating water stewardship by reducing our water consumption by 50% by 2030 in our managed operations (2008 baseline), and mapping global water risks, with particular emphasis on identifying and implementing innovative solutions in high water risk locations.

We outline actions taken to mitigate our water footprint in the 2022 ESG Report. Please view our 2022 ESG Report (p. 8, 18, 28) for further detail.

In 2022, our total water withdrawal was 155,848.88 megaliters (156 million cubic meters). Our water consumption intensity was 472.05 liters per square meter, representing an annual increase of 8.2% per square meter across the Hilton global portfolio of owned, managed and franchised hotels.

Across our global operations (owned, managed and franchised hotels), Hilton has reduced total water use intensity by 38.1% since 2008. For our managed portfolio only, we have reduced total water use intensity by 33.4% since 2008. Please view our 2022 ESG Report (Water, p. 28 and Performance Table, p. 54) for further detail. Our 2022 water data has been externally assured, as noted in our 2022 Assurance Statement.

We are committed to leading the hospitality industry toward a net-zero future and reducing our greenhouse gas emissions in line with climate science. In 2022 we strengthened and validated our emissions intensity reduction goals with SBTi, and are committed to cutting emissions by 75% in our managed portfolio, and 56% in our franchised portfolio by 2030.

We outline actions taken to mitigate our carbon footprint in the 2022 ESG Report.

In 2022, our Scope 1 emissions were 0.45 million metric tons of CO₂e. Please view our 2022 ESG Report (Performance Table, p. 53) for further detail. Our 2022 Scope 1 emissions data has been externally assured, as noted in our 2022 Assurance Statement.

In 2022, our Scope 2 location-based emissions were 1.92 million metric tons of CO₂e. Our Scope 2 market-based emissions were 1.90 million metric tons of CO₂e. Please view our 2022 ESG Report (Performance Table, p. 53) for further detail. Our 2022 Scope 2 emissions data has been externally assured, as noted in our 2022 Assurance Statement.

Per our Operational Control boundary, on-site emissions at properties owned and operated by franchisees are reported as Scope 3 emissions. In 2022, Hilton’s Scope 3 emissions from franchisees were 4.02 million metric tons CO₂e. The total includes emissions from on-site fuels combustion (0.89 million metric tons CO₂e) and indirect emissions from the generation of electricity, heat or steam purchased from a utility provider (3.20 million metric tons CO₂e). In addition, in 2022, we generated Scope 3 emissions of 17,095 metric tons CO₂e from employee business and air travel, and 86,883 metric tons CO₂e from the disposal of waste associated with our operations.

Please view our 2022 ESG Report (Performance Table, p. 53) for further detail. Our 2022 Scope 3 emissions data has been externally assured, as noted in our 2022 Assurance Statement.

<td>The Hilton Supply Management Responsible Sourcing &amp; Sustainability team engages procurement and business leaders to assess and mitigate sustainability risks in our supply chain. The team oversees the development of our comprehensive responsible sourcing strategy and guides global decisions related to implementation. All suppliers are required to observe and abide by Hilton’s Responsible Sourcing Policy, which is included in all supplier contracts. We continue to advance our partnership with EcoVadis to assess our critical suppliers’ sustainability risk and performance. We have begun to implement the requirement of existing and new critical suppliers to complete EcoVadis assessment if they have not already done so. EcoVadis assesses a supplier across the four themes of environment, labor &amp; human rights, ethics, and sustainable procurement. We have conducted a thorough analysis of our most material sourcing categories: seafood, meat and proteins, produce, and apparel and linens. A dedicated role and a cross-functional advisory group now helps to drive responsible sourcing across these categories. This group oversees the development of our comprehensive responsible sourcing strategy and guides global decisions related to implementation. We continued to make incremental progress towards our goal of strengthening responsibly sourced products across our owned, managed and leased properties, including our goal to increase sustainable seafood sourcing from Marine Stewardship Council (MSC) fisheries and Aquaculture Stewardship Council (ASC) farms.</td>

404-2 Programs for upgrading employee skills and transition assistance programs

Through Hilton University, our online learning platform, all Team Members have access to over 25,000 courses, providing the ability to explore new skills or expand their expertise. We know that leadership skills are important at every stage of someone’s career. That is why all Team Members also have access to leadership development curriculums through our Lead@Hilton platform that includes on-demand, self-paced content.

Our goal is to continuously upskill, reskill and multi-skill each Team Member, always seeking to set them up for development and growth within our company. We do this through our robust Job Skills training platform—a consistent, one-stop location for our Team Members to locate digital training checklists, and mobile-enabled resources. In May 2022, we proudly became the first in our industry to partner with Guild Education to provide U.S.-based Team Members with debt-free, continuing education opportunities.

From the spring of 2022, Team Members have had access to a wide variety of educational credentials from leading universities and learning providers including high school completion, English language learning, college degrees, professional certifications, and more.

2022 ESG Report (p. 34)

404-3 Percentage of employees receiving regular performance and career development reviews

Hilton Team Members are evaluated through our Performance Management Review process; this includes the setting of objectives, goals and concerns and allowing regular feedback and coaching.

DIVERSITY & EQUAL OPPORTUNITY

405 Management approach disclosure

To achieve our vision of Diversity, Equity & Inclusion (DE&I), we have set ambitious commitments, built accountability mechanisms into our business, established strong partnerships, and developed targeted training, hiring and work culture development programs to cultivate talent from all backgrounds. We outline actions and initiatives taken to promote our vision of DE&I in the 2022 ESG Report. See ESG Report (Diversity & Inclusion, p. 36–37) Hilton Diversity & Inclusion website and Hilton Great Places to Work profile.

2022 Independent Limited Assurance Verification for Hilton Inc.

Publicly Reported 2022 GHG, and Environmental, Social and Governance (ESG) Performance

ASSURANCE SUMMARY
Hilton, Inc. (Hilton) engaged DEKRA Certification, Inc (DEKRA) to provide an independent review and third-party assurance of information related to Hilton’s Environmental, Social, and Governance (ESG) programs for the calendar year of 2022. Hilton reports publicly through multiple venues, including but not limited to CDP, Dow Jones Sustainability Index, Hilton’s public financial disclosures, and Hilton’s Travel With Purpose website. The Limited Verification followed the requirements of ISO 14064-3: Specification with guidance for the validation and verification of greenhouse gas assertions.

Reporter: Hilton Inc.
Assurance Provider: DEKRA Certification, Inc
Reporter Contact: Bharati Bhosale
Lead Verifier: Zed Bates
Senior Reviewer: Cem Onus
Reporting Year: 2022
Reporting Scheme: Various - Carbon Disclosure Project, DJSI
Geographical Scope of Assurance: Worldwide
Assurance Scope: CO₂, CH₄, N₂O emissions; Water Use; Energy Use; Waste Generation and Landfill Diversion; Year on Year Changes
Operational Boundaries: Corporate facilities and Owned and Managed Hotels for Scope 1 and 2
Objectives: An evaluation of the following:
- Accuracy of publicly reported environmental data, including GHG emissions, water and energy use, and waste generated and diverted from landfills;
- Accuracy of publicly reported social impact data including youth impacted, volunteering hours, disaster relief and Action Grants funds distributed, number of diverse suppliers and anti-trafficking trainings; and
- The organization’s controls over its reported ESG data
Criteria: ISO 14064-3:2019 - Specification with guidance for the validation and verification of greenhouse gas assertions
Level of Assurance: Limited Assurance
Materiality: 5%
Assurance Findings: Verified

LIMITED ASSURANCE VERIFICATION OPINION
Based on the process and procedures conducted, there is no evidence that Hilton’s GHG and other environmental claims in the following Tables a) are not materially correct or a fair representation of GHG data and information, and b) have not been prepared in accordance with related International Standards on GHG quantification, monitoring and reporting, or to relevant national standards or practices.
The current brand standard requires that hotels input the following data into LightStay to provide their environmental and social impact data to Hilton. Hilton tracks and supports hotel compliance with the LightStay brand standards globally through the use of LightStay compliance alerts, monthly compliance reports, and direct communications with the Regional Property Operations and Brand Performance teams.

Hilton tracks and supports hotel compliance with the LightStay brand standards globally through the use of LightStay compliance alerts, monthly compliance reports, and direct communications with the Regional Property Operations and Brand Performance teams.

### GHO CLAIM EVALUATION

The data included in Tables 1 through 3 above (“Reported Data”) is managed at Hilton’s Corporate Headquarters in McLean, Virginia. For the purposes of this report, data listed in Tables 1-2 is considered environmental data, and the data in Table 3 is considered social impact data.

The environmental data is based on utility data input by over 7,000 managed and franchised properties into LightStay, Hilton’s ESG platform. Launched in 2009, LightStay was created to track sustainability performance across Hilton’s global portfolio and to help drive adoption of best practices that reduce environmental impacts. Hilton works closely with ei3, its technology partner and system host, to continually improve the LightStay system features for its hotels, owners, and management teams.

As a global brand standard, all managed and franchised hotels must utilize LightStay to provide their environmental and social impact data to Hilton. The current brand standard requires that hotels input the following data into LightStay on a monthly basis:

- Energy consumed from all energy sources (electricity, gas, steam, chilled water; other).
- Water consumed from all sources, including municipal water supply and other sources.
- Waste disposal including landfill and diverted waste streams (recycled, organic, other).
- All applicable volunteering events and donations including food donations, bath amenities, linen, FFE, etc.
- As a brand standard, all hotels must also set annual reduction goals for their energy, water and waste improvement projects.

</table>
Due to the large percentage of reporting properties, the automated calculations in LightStay (floor area based on international standard data) are critical. CO2 emissions factors were verified for different countries and subregions. Emissions-related data is crucial for meeting reporting requirements. Hilton’s diversity program currently includes 2,438 diverse suppliers. Supplier information is reviewed by two separate third-party processes.

**Reporting Scopes:**
- **Scope 1** includes on-site GHG emissions from fuel use, natural gas for comfort heating and hot water generation.
- **Scope 2** includes grid electricity used by Hilton’s managed hotel properties.
- **Scope 3** includes all on-site and off-site emissions from corporate and commercial business travel.

**Risk Evaluation:**
- **Sufficiency Risk:** Due to the large percentage of reporting properties, the automated LightStay and final corporate analysis were evaluated for sufficiency.
- **Appropriateness Risk:** The automated calculations in LightStay (floor area normalization) have been verified for this and all previous reporting cycles.
- **Materiality Risk:** Materiality risk was determined to be low.

**Social Impact Data:** Properties report volunteer events and participation through LightStay. The summary report of the volunteer hours was reviewed. Numizen outliers were identified and the specific entries within LightStay were reviewed. No discrepancies were noted.

Hilton provides its social impact data to its properties for reporting purposes. The amount transferred from Hilton in 2022 was confirmed by a representative from the Hilton corporate accounting department.

Hilton has assigned Anti-Trafficking Training Courses to all properties through Hilton University. Records from Hilton University were reviewed. Hilton’s Supplier Diversity Program currently includes 2,438 diverse suppliers. Supplier information is reviewed by two separate third-party processes.

**About DEKRA**
DEKRA Certification Inc. is a Management System certification company that has provided ISO 9001, 14001 and 50001 certification services to Hilton since 2010.

Beginning in 2008, DEKRA then operating as KEMA Registered Quality, Inc. Has provided independent validation services to Hilton for their own programs. DEKRA did not assist or consult with Hilton at any time in generating the Reported Data. DEKRA has procedures in place to ensure its work is free from bias and is not unduly influenced by outside parties.

Hilton University was reviewed. Records from Hilton University were reviewed. The summary report of the volunteer hours was reviewed. No discrepancies were noted.
